## About *Research Connections*

These data are made available by the Child Care and Early Education *Research Connections* (CCEERC) project, which promotes high quality research in child care and early education and the use of that research in policymaking. Our vision is that children are well cared for and have rich learning experiences, and their families are supported and able to work.

*Research Connections* is supported by the Child Care Bureau, Administration for Children and Families of the United States Department of Health and Human Services through a cooperative agreement with the National Center for Children in Poverty, Mailman School of Public Health at Columbia University, and its partner, the Inter-university Consortium for Political and Social Research, Institute for Social Research at the University of Michigan.

## NSAF RANDOM ADULT FILE CODEBOOK

**Variable Name: ECCEMP**

Label: Had employer coverage sometime last year

Type: N

Length: 3

Question Num: E41

Question Text: What other kinds of health insurance did (you/NAME) have? Was it insurance from a current or former employer or union, insurance purchased directly from an insurance company, Medicare, CHAMPUS, CHAMP-VA, VA, other military health insurance, Indian Health Service, Medicaid (STATE NAME FOR MEDICAID), (STATE HEALTH INSURANCE PROGRAM) or some other type of coverage?

Description: This question identifies types of coverage for members of the target group who had health insurance coverage of some type at the time of the survey and whose health insurance changed during the past 12 months. The interviewer coded all that apply (up to five). Most people had one type of coverage. If they had the same type of coverage at two different times during the past 12 months, it was only coded once. Recorded here were workplace health insurance plans provided by a current employer, a former employer, or a union—including insurance provided through workers who do not live with the family.

**Variable Name: ENCOVMO**

Label: Number months covered by ins last year

Type: N

Length: 3

Question Num: E37A

Question Text: For how many of the past 12 months did (you/NAME) have health insurance?

Description: The interviewer recorded the number of months the person had health insurance during the past 12 months for members of the target group who are currently uninsured. If the respondent reported less than one month, the interviewer rounded up and recorded 1. Some people may have been insured more than once during the year. For example, they could have been uninsured in January and February, enrolled in a publicly subsidized insurance plan from March through September, and then lost their insurance for the rest of the year. In these cases, the interviewer was prepared to help the respondent compute the total number of months with insurance.

Means:	<u>Non-miss n</u>	<u>Min</u>	<u>Max</u>	<u>Mean</u>
	2,058	1	12	6.91

## NSAF RANDOM ADULT FILE CODEBOOK

**Variable Name: FDOCT**

Label: Number of doctor visits last year

Type: N

Length: 3

Question Num: F10

Question Text: During the past 12 months, how many times [have you/has (SPOUSE/PARTNER/CHILD)] seen a doctor? (Do not include the dental, emergency, or mental health visits, or the visits to other health professionals you just told me about. Also, do not include doctors seen while an overnight patient in the hospital).

Description: Definition of "see a doctor": The interviewer included visits with osteopaths, as well as with medical doctors. Telephone calls to doctors or doctors seen while a respondent was an overnight patient in the hospital were excluded. Also excluded were any dental, emergency room, or mental health visits already reported. The interviewer was prepared to work with the respondent to calculate the total number of visits since the date 12 months ago. The respondent was encouraged that their best estimate was fine. If the respondent volunteered that two or more doctors were seen in a single visit, then each doctor seen was counted as a separate visit. If the respondent volunteered that a single visit involved seeing one doctor and one or more of the doctor's assistants (who work under this doctor's supervision), the interviewer counted this as one doctor visit. Note that the codebook frequencies for this variable reflect the actual distribution of the data, while in the public use files, the data have been top-coded to the 99th percentile.

Means:	<u>Non-miss n</u>	<u>Min</u>	<u>Max</u>	<u>Mean</u>

	4	Somewhat worse	3,356	6.38
	5	Much worse	693	1.32

**Variable Name: FHOSP**

Label: In hospital overnight last year

Type: N

Length: 3

Question Num: F4

Question Text: {Next, I'd like to talk to you about the use of medical care by your family in the past year.}

During the past 12 months, [were you/was (SPOUSE/PARTNER/CHILD)] a patient in a hospital overnight?

Description: Definition of "in a hospital overnight": The interviewer did not include visits where the person was admitted and released on the same day. Also excluded were visits to emergency rooms or outpatient clinics, unless the person was admitted and stayed overnight. Also, stays in the hospital for nonmedical reasons, such as a parent staying with a sick child, were excluded.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	1	Yes	5,672	10.79
	2	No	46,915	89.21

## NSAF RANDOM ADULT FILE CODEBOOK

**Variable Name: FHPROF**

Label: Num of hlth prof vsts lst yr (exl phys)

Type: N

Length: 3

Question Num: F9

Question Text: During the past 12 months, how many times [have you/has (SPOUSE/PARTNER/CHILD)] seen a nurse practitioner, physician's assistant or midwife? (Do not include the dental, emergency, or mental health visits you just told me about. Also, do not include nurse practitioners, physician assistants or midwives seen while an overnight patient in the hospital).

Description: Definition of "see a nurse practitioner or physician assistant":

Visits with medical personnel other than doctors (i.e., does not include physician visits). The interviewer did not include telephone calls or medical personnel seen while a respondent was an overnight patient in a hospital, or any dental, emergency room, mental health, or doctor visits already reported. If the respondent volunteered that he or she saw a doctor and a nurse practitioner or physician assistant on the same visit, then the visit was counted as a doctor visit in F10, and was not counted here. The interviewer was prepared to work with the respondent to calculate the total number of visits since the date 12 months ago. The respondent was encouraged that their best estimate was fine. Note that the codebook frequencies for this variable reflect the actual distribution of the data, while in the public use files, the data have been top-coded to the 99th percentile.

Means:	<u>Non-miss n</u>	<u>Min</u>	<u>Max</u>	<u>Mean</u>
	52,587	0	104	0.91

---

**Variable Name: FMENT**

Label: Number of mental health visits last year

Type: N

Length: 3

Question Num: F8

Question Text: During the past 12 months, how many times [have you/has (SPOUSE/PARTNER/CHILD)] received mental health services, including mental health services received from a doctor, mental health counselor, or therapist? {And do not include treatment for substance abuse or smoking cessation.}

Description: This question was asked about the random adult and focal children 3 years of age or older. Definition of "mental health visit": Visits to psychiatrists, psychologists, psychiatric nurses, and clinical social workers who are professionally trained persons paid to listen and help respondents with problems. The interviewer included doctors, mental health counselors, school counselors, and therapists if they were seen for mental health care. Treatment for drug abuse or to quit smoking were not included. Note that the codebook frequencies for this variable reflect the actual distribution of the data, while in the public use files, the data have been top-coded to the 99th percentile.

Means:	<u>Non-miss n</u>	<u>Min</u>	<u>Max</u>	<u>Mean</u>

## NSAF RANDOM ADULT FILE CODEBOOK

**Variable Name: FPAP**

Label: Had pap smear last year

Type: N

Length: 3

Question Num: F12

Question Text: During the past 12 months, [have you/has (SPOUSE/PARTNER)] received a Pap smear?

[PROBE: A Pap smear is a routine gynecological test in which the doctor examines the cervix and sends a sample to the lab.]

Description: The interviewer did not interpret this question for the respondent. If the question was not understood, the interviewer repeated the question.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	.1		23,852	45.36
	1	Yes	18,750	35.66
	2	No	9,985	18.99

**Variable Name: FPLACE**

Label: Have usual place for health care

Type: N

Length: 3

Question Num: F16

Question Text: Next, I'd like to ask where your family gets health care. Is there a place where [you go/(SPOUSE/PARTNER/CHILD) goes] when [you are/(he/she) is] sick or {when you} need advice about [your/(his/her)] health?

Description: The word "Usually" was emphasized. If the respondent reported seeing different doctors for different problems, or a specialist for a specific disease and a different doctor for routine medical care, then the question was repeated, emphasizing "Usually." If the answer was still particular doctors for particular problems, the interviewer coded YES.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>

## NSAF RANDOM ADULT FILE CODEBOOK

**Variable Name: RESPID**

Label: Respondent identification number

Type: C

Length: 10

Question Num: N/A

Question Text: N/A

Description: This is a unique number assigned to each respondent during survey processing. We included it as a convenience to researchers wishing to bring together interview records for the same respondent. The number is unique. However, one respondent may answer for two focal children. In this case, both focal children will share the same RESPID. Similarly, each respondent provided information on his or her spouse/partner as well as him or herself.

---

**Variable Name: SEX**

Label: Gender

Type: C

Length: 2

Question Num: S6(SEX)/D1

Question Text: [FOR HOUSEHOLDS WITH CHILDREN: Now I'd like to ask about the children in your household who are under 18 years-old.]  
[FOR HOUSEHOLDS WITHOUT CHILDREN: To find out who is eligible for the study, I'd like to ask about the people who usually live in your household who are under 65.]

Please tell me just their first name and age.

[FOR EACH CHILD/PERSON, ASK: Is this (child/person) (a boy or a girl/male or female)?]

Description: Gender was obtained for all household members either in the screener (S6) or the household roster in the extended interview (D1). It was only very occasionally missing (see the variable XSEX) and was imputed along with age when necessary. One of the reasons that it was imputed less often than age is that sex could be edited in some cases when a first name was given by the respondent.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	F	Female	28,735	54.64
	M	Male	23,852	45.36

## NSAF RANDOM ADULT FILE CODEBOOK

**Variable Name: U\_HRSLY**

Label: Hours worked per week last year

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable captures how many hours the sampled adult worked each week in the previous year. The values were based on responses to questions in section I (Employment and Earnings) of the questionnaire. For respondents who were working at the time of the survey for only one employer and who had worked for the same employer for one year or more, U\_HRSLY is equal to the workers current usual hours of work (either IHRJBS, IHRSWK or IHRSWKN). For respondents who were mainly self-employed both at the time of the survey and last year, U\_HRSLY is equal to the workers current usual hours of work (ISEHR). For all other respondents, U\_HRSLY is equal to the hours that they usually worked per week at their main job last year.

Means:	<u>Non-miss n</u>	<u>Min</u>	<u>Max</u>	<u>Mean</u>
	43,111	1	126	40.90

**Variable Name: U\_LFSR**

Label: Labor force status recode

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: Based on responses to questions in section I (Employment and Earnings) of the survey, this variable indicates the sampled adult's labor force status (whether he or she is working, looking for work, or not in the labor force). On the focal child data set, this variable refers to focal children who are also emancipated minors, MKAs or spouse/partners of MKAs.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	0	Not in labor force	10,817	20.57
	1	Looking for work	2,291	4.36
	2	Working	39,479	75.07

## NSAF RANDOM ADULT FILE CODEBOOK

**Variable Name:** U\_SOCPOV

Label: Social family income as % of poverty

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This constructed variable compares family income received during the year preceding the survey (e.g. 1996 family income for the 1997 NSAF) to the Census Bureau's Federal poverty thresholds for that year, given family size and numbers of children in the family. The social family includes not only married partners and their children, but also unmarried partners, all of their children, and members of the extended family (anyone related by blood, marriage, or adoption to the MKA, the spouse/partner, or their children). Information about the Census Bureau's poverty thresholds is available online at <http://www.census.gov/hhes/poverty/povdef.html>.

To determine family income, questions are asked about the amount of money income received in the preceding calendar year by each person in the sampled family, 15 years old and over. Sources of income include:

- (a) Money wages or salary;
- (b) Net income from self-employment;
- (c) Social Security;
- (d) Supplemental Security Income;
- (e) Public assistance or welfare payments;
- (f) Interest (on savings or bonds);
- (g) Dividends, income from estates or trusts, or net rental income;
- (h) Veterans' payment or unemployment and workmen's compensation;
- (i) Private pensions or government employee pensions; and
- (j) Alimony or child support, regular contributions from persons not living in the household, and other periodic income.

For earnings, this variable uses information reported in Section I: Employment and Earnings. Specifically, this included items on earnings from the year preceding the survey (items I49A - I76). For other sources of income (unearned income) received during the previous year, the variable uses information gathered in Section J: Family Income. Amounts that are reported from the receipt of vouchers or coupons from the welfare office to pay for special expenses (item J5) and food stamps (item J6) are not included in the calculation of family income.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	0.5	Family income < 50% (last yr)	2,489	4.73
	1	50%<=family inc<100% of pov line (last yr	4,064	7.73
	1.5	100%<=family inc<150% of pov line (last yr	5,228	9.94
	2	150%<=family inc<200% of pov line (last yr	5,348	10.17
	3	200%<=family inc<300% of pov line (last yr	9,419	17.91
	4	Family income >= 300% of poverty (last yr)	26,039	49.52

## NSAF RANDOM ADULT FILE CODEBOOK

**Variable Name:** U\_USBORN

Label: U.S.- or foreign-born

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable identifies whether household residents are "U.S.-" or "foreign-born". The foreign-born population includes all persons who are not U.S. citizens at birth. Conversely, the U.S.-born population is all persons who are U.S. citizens at birth. Most U.S.-born are born in the United States, but the U.S.-born population also includes persons born in Puerto Rico or another U.S. territory or outlying area (for instance, Guam, the U.S. Virgin Islands, American Samoa, Northern Marianas Islands, and the Marshall Islands). In addition, some persons born in foreign countries are considered part of the U.S.-born population because they were born to U.S. citizens residing outside the United States. Foreign-born persons include both naturalized citizens and non-citizens (see UIMMSTAT).

Respondents were asked where each household resident was born. For persons born outside the 50 states, the District of Columbia, Puerto Rico, and other U.S. territories and outlying areas, additional questions on U.S. citizenship followed. If a respondent answered that a household resident was a "non-citizen," then that person was coded as foreign-born. Additionally, if a respondent answered that the person was a "naturalized citizen," then they were also coded as foreign-born. A small number of focal children cases (34) were imputed to be U.S.-born, although they were born abroad, because one or more of their parents was a native-born U.S. citizen.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	1	U.S.-born	47,232	89.82
	2	Foreign-born	5,355	10.18

**Variable Name:** U\_USHRS

Label: Hours worked per week this year

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable indicates the number of hours the sampled adult usually worked each week in the current year. Depending on how the sampled adult was employed, each score for this variable was calculated from responses to questions in section I (Employment and Earnings).

Means:	<u>Non-miss n</u>	<u>Min</u>	<u>Max</u>	<u>Mean</u>
	39,426	1	126	41.93

## NSAF RANDOM ADULT FILE CODEBOOK

**Variable Name: U\_WKSLY**

Label: Weeks worked last year

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable records the number of weeks the sampled adult worked in the past year. This number was calculated based on questions from section I (Employment and Earnings) of the survey. The question from which the answer was derived varied according to the employment situation of the sampled adult.

Means:	<u>Non-miss n</u>	<u>Min</u>	<u>Max</u>	<u>Mean</u>
	43,182	1	52	45.53

---

**Variable Name: UAGE**

Label: Age (topcoded)

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: The variable UAGE provides the age for each sampled person, truncated at 85. Ages were asked about early in the NSAF. The first name of each household member was also obtained at this point so that further questions about each individual could be asked using his or her name. In a few rare cases, this variable was missing and was imputed.

Means:	<u>Non-miss n</u>	<u>Min</u>	<u>Max</u>	<u>Mean</u>

## NSAF RANDOM ADULT FILE CODEBOOK

**Variable Name: UBIREL**

Label: Relation to option b respondent 1

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable refers to the relationship of the sampled person to the childless adult respondent 1, obtained from the Household Roster section of the survey (Section D). The relationship classifications are not gender-specific. Researchers who desire gender information will have to combine this variable with the variable SEX in order to determine whether the sampled person is, for example, an aunt or uncle.

---

**Variable Name: UCPSID**

Label: CPS family ID

Type: C

Length: 10

Question Num: N/A

Question Text: N/A

Description: CPS family ID is a unique number assigned to each family during survey processing. We included it as a convenience to researchers wishing to bring together interview records for the same CPS family. The number assigned will be the same on all files for the same family and, therefore, may be used to match records from one NSAF public use file to another. CPS family definition considers members of a family to be the householder, spouse of family householder, children in the family, and other relatives of the family householder.

---

## NSAF RANDOM ADULT FILE CODEBOOK

### Variable Name: UCUREMP

Label: Currently has employer coverage

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable assigns a value of 1 to persons who reported receiving employer sponsored health insurance coverage either directly or through another family member. Those who received a value of 1 may be receiving employer coverage exclusively or in combination with other types of health insurance coverage. This variable was created from variables E1-E5, E23, and E24.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	0	Person had no current employer coverage	16,509	31.39
	1	Person had current employer coverage	36,078	68.61

---

### Variable Name: UCURMEDC

Label: Currently has Medicare coverage

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable flags those people who reported that they were currently receiving Medicare benefits. Those who received a value of 1 for this variable could have been covered solely by Medicare or alternatively could be receiving Medicare in combination with other types of health insurance. This variable was created from variables E13-E14 and E23.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	0	Person had no current Mediare coverage	50,923	96.84
	1	Person had current Mediare coverage	1,664	3.16

---

## NSAF RANDOM ADULT FILE CODEBOOK

**Variable Name: UCURMISC**

Label: Currently has other coverage

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable assigns a value of 1 to those people who reported that they were currently receiving some kind of health insurance coverage in the verification question (E23). If their responses to the verification question did not fall into any of the pre-determined health insurance categories, they were flagged as receiving some form of miscellaneous coverage.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	0	Person had no current other specify coverage	52,392	99.63
	1	Person had current other specify coverage	195	0.37

---

**Variable Name: UCURNINS**

Label: Currently uninsured

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable assigns a value of 1 to those people who report that they are not currently enrolled in any health insurance plan. A verification question (E22) was designed to ensure that respondents are specifically asked about their uninsured status. Those who reported that they were receiving Indian Health Services were also categorized as uninsured and received a value of 1 for this variable.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	0	Person was not currently uninsured	44,388	84.41
	1	Person was currently uninsured	8,199	15.59

	14	Nonrelative, no own relatives in HH	667	1.27

## NSAF RANDOM ADULT FILE CODEBOOK

**Variable Name: UFAMID**

Label: Social family ID

Type: C

Length: 10

Question Num: N/A

Question Text: N/A

Description: In addition to grouping respondents using CPS definition of a family, NSAF respondents were grouped according to a second family definition. This “social family” definition included not only married partners and their children, but also unmarried partners, all of their children, and members of the extended family (anyone related by blood, marriage, or adoption to the MKA, the spouse/partner, or their children).

This unique number was assigned to each such “family” during survey processing. We included it as a convenience to researchers wishing to bring together interview records for the same social family. The number assigned will be the same on all files for the same family and, therefore, may be used to match records from one NSAF public use file to another.

---

**Variable Name: UFAMTYP**

Label: CPS family type

Type: N

## NSAF RANDOM ADULT FILE CODEBOOK

**Variable Name: UHHDREL**

Label: Detail household summary

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable is based on the CPS variable HHDREL, the detailed household summary, but there are slight differences. In CPS, HHDREL=3 means a child under 18 years, never married while HHDREL=4 means a child under 18 years, ever married. Since NSAF does not gather that information for everyone, we can only search for a spouse present or not present in the household. Also, while some people are coded as unrelated to the reference person, they may in fact have an indirect relationship by way of marriage (e.g., a person is married to the daughter of the reference person or a person whose parent is married to the reference person). The code checks for these situations in assigning UHHDREL. Values for this variable were coded based on RELHEAD.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	1	Householder	28,805	54.78
	2	Spouse of householder	15,043	28.61

## NSAF RANDOM ADULT FILE CODEBOOK

**Variable Name: UHINS4**

Label: Current insurance coverage hierarchy

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable classifies each sampled person's health insurance coverage at the time of the survey into four mutually exclusive groups constructed as a hierarchy. For instance, if someone identified having both employer-sponsored coverage and Medicaid, they were classified as having a value of 1 (Employer-Sponsored) for this variable. The order of the hierarchy was: employer-sponsored own, employer-sponsored dependent, Medicaid, state program, SCHIP, a plan purchased directly from an insurance company, Medicare, military, and other-unspecified type. After persons with multiple coverage plans have been classified according to the specified hierarchy, coverage types are collapsed into the four mutually exclusive groups: employer (including military coverage), Medicaid/State/SCHIP, Other (including private, Medicare, and other), and uninsured. It is created using variables E1-E24.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	1	Employer	36,636	69.67
	2	Medicaid/State/CHIP	3,800	7.23
	3	Other	3,952	7.52
	4	Uninsured	8,199	15.59

**Variable Name: UHINSLY7**

Label: Past year insurance coverage hierarchy

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: The insurance coverage of each person in the 12 months prior to the survey was classified as public, private, or uninsured. Insurance coverage was then categorized into a hierarchy of combinations of coverage. Military health coverage was classified as 'private'.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	1	Full year private only	36,480	69.37
	2	Full year public only	3,835	7.29
	3	Part year public, part year private, ins all yea	1,069	2.03
	4	Part year public, part year uninsured	1,104	2.10
	5	Part year private, part year uninsured	3,772	7.17
	6	Part year public, part year prvt, part year uni	249	0.47
	7	Full year uninsured	6,078	11.56

## NSAF RANDOM ADULT FILE CODEBOOK

**Variable Name: UHSPGRP**

Label: Hispanic Subgroup (4 category)

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: If the sampled person is of Spanish or Hispanic origin, this variable indicates the subgroup of origin.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	.D		33	0.06
	.I		47,328	90.00
	.R		5	0.01
	1	Mexican	2,835	5.39
	2	Puerto Rican	786	1.49
	3	Cuban	220	0.42
	4	Other	1,380	2.62

**Variable Name: UIMMSTAT**

Label: Immigration status

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable identifies whether or not a household resident is a "U.S.-born citizen"; "foreign-born, naturalized U.S. citizen"; or "foreign-born, non-citizen." U.S.-born citizens are born in the 50 U.S. states, the District of Columbia, Puerto Rico or another U.S. territory (for instance, Guam, the U.S. Virgin Islands, American Samoa, Northern Marianas Islands, and the Marshall Islands). Additionally, some persons born in foreign countries are considered U.S.-born citizens because they were born to U.S. citizens residing outside the United States. Naturalized citizens are foreign-born persons who have become U.S. citizens. Non-citizens are also foreign-born but have not yet become citizens (see U\_USBORN).

Respondents were asked where all household residents were born. For persons born outside the 50 states, the District of Columbia, Puerto Rico, and other U.S. territories and outlying areas, additional questions on U.S. citizenship followed. A small number of focal children cases (34) were imputed to be U.S.-born citizens, although they were born abroad, because one or more of their parents was a U.S.-born citizen.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	1	US-born citizen	47,232	89.82
	2	Foreign-born, naturalized US citizen	2,215	4.21
	3	Foreign-born, non-citizen	3,140	5.97

## NSAF RANDOM ADULT FILE CODEBOOK

**Variable Name: UINCRPOV**

Label: CPS family income as % of poverty

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This constructed variable compares family income received during the year preceding the survey (e.g. 1996 family income for the 1997 NSAF) to the Census Bureau's Federal poverty thresholds for that year, given family size and numbers of children in the family. The family is composed of all household residents related by blood, marriage, or adoption. Information about the Census Bureau's poverty thresholds is available online at <http://www.census.gov/hhes/poverty/povdef.html>.

To determine family income, questions are asked about the amount of money income received in the preceding calendar year by each person in the sampled family, 15 years old and over. Sources of income include:

- (a) Money wages or salary;
- (b) Net income from self-employment;
- (c) Social Security;
- (d) Supplemental Security Income;
- (e) Public assistance or welfare payments;
- (f) Interest (on savings or bonds);
- (g) Dividends, income from estates or trusts, or net rental income;
- (h) Veterans' payment or unemployment and workmen's compensation;
- (i) Private pensions or government employee pensions; and
- (j) Alimony or child support, regular contributions from persons not living in the household, and other periodic income.

For earnings, this variable uses information reported in Section I: Employment and Earnings. Specifically, this included items on earnings from the year preceding the survey (items I49A - I76). For other sources of income (unearned income) received during the previous year, the variable uses information gathered in Section J: Family Income. Amounts that are reported from the receipt of vouchers or coupons from the welfare office to pay for special expenses (item J5) and food stamps (item J6) are not included in the calculation of family income.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
0.5		Family income < 50% (last yr)	2,930	5.57
1		50%<=family inc<100% of pov line (last yr	4,213	8.01
1.5		100%<=family inc<150% of pov line (last yr	5,309	10.10
2		150%<=family inc<200% of pov line (last yr	5,260	10.00
3		200%<=family inc<300% of pov line (last yr	9,418	17.91
4		Family income >= 300% of poverty (last yr)	25,457	48.41

## NSAF RANDOM ADULT FILE CODEBOOK

**Variable Name: UMARSTAT**

Label: Marital status recode

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: Marital status was asked of the respondent only. Spouses of respondents were automatically coded as married, but unmarried partners of respondents were assigned a value of "No spouse in HH, partner in HH, DK marital status."

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	1	Married, spouse in household	30,723	58.42

---

## NSAF RANDOM ADULT FILE CODEBOOK

**Variable Name: UREGION**

Label: Region

Type: C

Length: 1

Question Num: N/A

Question Text: N/A

Description: In NSAF, we use the regional partitioning of the United States that was set up by the Census Bureau. The Census Bureau divides the United States into four regions, and within each region into divisions, nine in all. The regions are the Northeast, Midwest (formerly North Central), West, and South. The nine geographic divisions have been largely unchanged for the presentation of summary statistics since the 1910 Census:

**NORTHEAST REGION.** This region consists of two divisions: New England and the Middle Atlantic. New England has six states: Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont. The Middle Atlantic Division has three states: New Jersey, New York, and Pennsylvania.

**MIDWEST REGION.** This region also consists of two divisions: East North Central and West North Central. East North Central has five states: Illinois, Indiana, Michigan, Ohio, and Wisconsin. The West North Central Division has seven states: Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, and South Dakota.

**WEST REGION.** This region consists of the Mountain and Pacific Divisions. The Mountain Division has eight states: Arizona, Colorado, Idaho, Montana, Nevada, New Mexico, Utah, and Wyoming. The Pacific Division has five states: Alaska, California, Hawaii, Oregon, and Washington.

**SOUTH REGION.** The South Census Region has three divisions: East South Central, West South Central, and South Atlantic. The states are Alabama, Kentucky, Mississippi, and Tennessee for the East South Central Division and Arkansas, Louisiana, Oklahoma, and Texas for the West South Central Division. The South Atlantic Division includes the District of Columbia and the remaining states: Delaware, Florida, Georgia, Maryland, North Carolina, South Carolina, Virginia, and West Virginia.

For the telephone sample, the regions were derived from the area code of the telephone number. From the in-person component, the regions were obtained from the actual sample addresses. Divisions have been defined here, even though the public use files show only census region.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	1	Northeast	11,639	22.13
	2	Midwest	16,806	31.96
	3	South	13,789	26.22
	4	West	10,353	19.69

Question Num: N/A

Question Text: N/A

Description: This variable refers to the relationship of the sampled person to the spouse of the first option B respondent, obtained from the Household Roster section of the survey (Section D). The relationship classifications are not gender-specific. Researchers who desire gender information will have to combine this variable with the variable SEX in order to determine whether the sampled person is, for example, an aunt or uncle.

**Variable Name: USRC\_NO**

Label: ER or no usual source of care

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable was derived from USOURCE, for which all those individuals who reported not having a usual source of care and those who relied on the hospital emergency room for their care were assigned a value of 1. This variable was created from variables F16 and F17.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	1	No or emergency room as usual source of ca	7,667	14.58
	2	Has usual source of care (other than emrgnc	44,920	85.42

---

**Variable Name: USUBFAM**

Label: CPS subfamily number

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable is a flag for subfamily assignment and is used in creating legal family ID numbers.

Values of USUBFAM are created based on HHCOUNT (number of persons in a household), SPOUSE, PARENT, and OTHREL.

If a person is the reference person, he/she is placed in the first subfamily.

The program cycles through the household roster, searching for spouses and children. Spouses and children are placed in the same subfamily unit as the initial person. Other relatives are also picked up and put into the same subfamily unit as the initial person.

---

**Variable Name: WGRNNA0**

Label: Natl lvl random adult full smpl wgt

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This is the national level survey weight. The weight reflects the original probability of selection of the household, the subsampling done in NSAF to reduce respondent burden, and adjustments made for nonresponse. The weight was further modified, as is customary in household surveys, to correct for net undercoverage. The specific population totals used in the coverage adjustment were obtained from the Census Bureau and are consistent with the concepts employed in the 2000 decennial census.

## NSAF RANDOM ADULT FILE CODEBOOK

**Variable Name: WGRNNA1-WGRNNA60**

Label: Natl lvl random adult replicate wghts

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This entry consists of 60 weights provided for researchers who wish to obtain sampling variance estimates using WesVar or other statistical software packages that use replicate weights. These are the replicate versions of the full sample weight and should be employed when variances are required for estimates. Issues of variance estimation are discussed in more detail in the NSAF methodology report series.
