Child Trends

Codebook for Adult Pair Data

About *Research Connections*

These data are made available by the Child Care and Early Education *Research Connections* (CCEERC) project, which promotes high quality research in child care and early education and the use of that research in policymaking. Our vision is that children are well cared for and have rich learning experiences, and their families are supported and able to work.

Research Connections is supported by the Child Care Bureau, Administration for Children and Families of the United States Department of Health and Human Services through a cooperative agreement with the National Center for Children in Poverty, Mailman School of Public Health at Columbia University, and its partner, the Inter-university Consortium for Political and Social Research, Institute for Social Research at the University of Michigan.

Variable Name: DKIDOHH

Label: Resp or spouse/part has chldrn out of HH

Type: N

Length: 3

Question Num: D8B

Question Text: (Do you/Does (SPOUSE NAME)) have any children under 18 years of age living outside of the household?

Description: This variable refers to whether or not the respondent or spouse/partner has any children under 18 years of age living outside of the household. It was not interpreted for the respondent. In previous rounds, this survey item was asked only about make respondents or spouse/partners.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %

	2	No	67,016	94.95

Variable Name: FCARE

Label: Receives help/supervision for care

Type: N

Length: 3

Question Num: F3A

Question Text: [Do/Does] [you/Spouse/Partner`s name] receive help or supervision with personal care such as bathing, eating, dressing or getting around the house because of an impairment or mental health problem?

Description: This question is asked of those MKAs and Spouse/Partners who indicated that they have a physical, mental, or other health condition that limits the kind or amount of work that they can do.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	.I		60,819	86.17

	2	No	8,852	12.54

Variable Name: **FDISBL**

Label: Has health condition that limits work

Type: N

Length: 3

Question Num: F3

Question Text: [ASK F3 OF BOTH MKA AND SPOUSE/PARTNER] [Do you/Does (SPOUSE/PARTNER)] have a physical, mental or other health condition that limits the kind or amount of work [you/(he/she)] can do?

Description: The interviewer defined physical, mental, or other health condition as an ongoing or chronic impairment or condition. This did not include pregnancy or childbirth as a condition. It also did not include an injury that occurred three months ago or less (unless it resulted in obvious permanent limitation), or the effects of an operation that took place three months ago or less (unless these effects were obviously permanent).

The interviewer also defined "limits work" as covering both working at a paid job or doing work around the house. Some examples of limits work included:
(1) Can do only certain types of jobs;
(2) Able to work only for short periods of time;
(3) Has to rest often; can do certain household chores but not others;
(4) Needs help doing housework because of the impairment or health condition;
(5) Does not need help but requires longer than normal periods of rest between housekeeping activities.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	1	Yes	9,758	13.83

Variable Name: **FHLTHS**

Label: Current health status

Type: N

Length: 3

Question Num: F1

Question Text: [ASK F1 OF BOTH MKA AND SPOUSE/PARTNER] I'd like to talk about [(SPOUSE/PARTNER)'s or your] health status. In general, would you say [your/ (his/her)] health is . . .

Description: In asking this question the interviewer was to clearly state the list of alternative responses. If the respondent gave an answer other than one of the choices listed on the questionnaire (such as "pretty good") or otherwise showed that he or she did not understand, the interviewer was to ask the question again, starting with the phrase "in general."

Frequencies	Value	Label	Unwgt Cnt	Unwgt %

Label: Receives help/supervision with tasks

Type: N

Length: 3

Question Num: F3B

Question Text: [Do/Does] [you/Spouse/Partner`s name] receive help or supervision using the telephone, paying bills, taking medications, preparing light meals, doing laundry or going shopping because of an impairment or mental health problem?

Description: This question is asked of those MKAs and Spouse/Partners who indicated that they have a physical, mental, or other health condition that limits the kind or amount of work that they can do.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	.I		60,819	86.17
	1	Yes	1,761	2.50
	2	No	7,997	11.33

Variable Name: GPAY

Label: Pay for all child care used last month

Type: N

Length: 3

Question Num: G52

Question Text: Now think about all the child care arrangements and programs you use regularly for [(CHILD1)/(CHILD2)/all your children under age 13] while you worked, were in school or looked for work. How much did you pay for all child care arrangements and programs used in the last month?

[IF NECESSARY, SAY: If it is easier for you, you can tell us what you paid, in a typical week of the last month.]

Description: This variable asked the respondent to estimate the total amount of money she or he paid during the last month for all child care used while she or he worked at a job for pay, looked for a job, went to school, or went to a job training program. The respondent was instructed to include child care costs for all of her or his children age 12 or younger. Many parents pay a single amount for child-care arrangements that actually cover more than one child. In other cases, it was necessary to help the respondent count up separate costs for each child in care. If the respondent had difficulty providing an estimate for the entire month, the respondent was asked to report an estimate for a typical week during the month. The variable GPAY notes only whether an amount was given or not. If an amount was given, it was recorded using the variables GPAYAMT and GPAYUNT.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %

Variable Name: HHID

Label: Household identification number

Type: C

Length: 8

Question Num: N/A

Question Text: N/A

Description: This is a unique number assigned to each household during survey processing. We included it as a convenience to researchers wishing to bring together interview records for the same household.

Variable Name: IABVFPV

Label: Earnings GT/LT four times pov line

Type: N

Length: 3

Question Num: I70

Question Text: Below or above [FOUR TIMES THE POVERTY LINE COMPUTED FOR THE WHOLE FAMILY?]

[DO NOT PROBE "REFUSALS." PROBE ONLY "DON'T KNOW" ANSWERS.]

Description: This question was only asked of respondents whose social family earnings had not yet been determined to be greater than 400% of the federal poverty threshold. As such, this variable does not reflect imputations or other edits. For most analyses using family income with respect to the poverty level, see UINCRPOV and/or U_SOCPOV.

Variable Name: IEMPNOW

Label: Employed now

Type: N

Length: 3

Question Num: I2

Question Text: Now I would like to ask a few questions about [your/(SPOUSE/PARTNER)`s] employment.

[Are you/Is (SPOUSE/PARTNER)] now employed at a job or business?

[IF SUBJECT HAS A JOB BUT IS NOT AT WORK (SICK, VACATION, STRIKE, BAD WEATHER) COUNT AS EMPLOYED.]

Description: The interviewer defined employed at a job or business as including any activities for wages or salaries, for profit or fees, or for payment in kind. It also includes self-employment, unpaid activity on a family farm or business, and unpaid work performed in exchange for welfare benefits (workfare). Respondents were considered employed even if at the time of the interview they were: temporarily out of work because of sick leave (paid or unpaid), vacation (paid or unpaid), a strike, or bad weather (as for construction workers); on (paid or unpaid) leave of absence or on a temporary layoff if they have a definite arrangement to return to that job; or on maternity leave, or summer vacation (for school personnel) if they have an arrangement to return to. Respondents who work on-call (such as substitute teachers) or on an as-needed basis were not counted as being employed. Also not included were seasonal workers during the off-season, students who were in school but who had plans for summer jobs, or people who did only volunteer work.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %

Variable Name: IEMPPAY

Label: Employer share of health insurance cost

Type: N

Length: 3

Question Num: I18

Question Text: Does [your/(SPOUSE/PARTNER)'s] employer pay all, part, or none of the cost of the premiums for this health insurance?

Description: The respondent was expected to report whether the employer pays all, part, or none of the premium for the employee's own health insurance. The premium was defined as the regular payment for the health insurance coverage. It is different from deductibles and copayments paid for specific health care services. If there are no required premium contributions and the only payments the employee needs to make are the deductible or copayments when they use services, then the response to this question was entered as the employer pays all of the cost.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %

Variable Name: ILYWKSA

    Label: Amount worked last year - number

    Type: N

    Length: 3

Question Num: I49A

Question Text: I have a few questions about the work [you/(SPOUSE/PARTNER)] did last year.

During all of 2001, how many weeks did [you/(SPOUSE/PARTNER)] work including paid vacation and sick leave?

[PROBE: Even for a few hours]

[PROBE: Or how many months, if that's easier for you]

    Description: The interviewer asked the respondent the actual number of weeks in which the respondent/respondent's spouse or partner worked, even if he or she worked only an hour a week. If the respondent had difficulty reporting the number of weeks, the interviewer was to ask for number of months. The interviewer entered 52 weeks if the respondent answered "all year." See also U_WKSLY.

Means:	Non-miss n	Min	Max	Mean

Variable Name: **IRUNEMP**

Label: Main reason not working

Type: N

Length: 3

Question Num: I4

Question Text: What is the main reason [you are/(SPOUSE/PARTNER) is] not working?

Description: Interviewers were instructed to read the entire list of possible reasons for not working if they found it necessary to probe for an answer. After getting an answer, they confirmed that the code they selected was the main reason the respondent/respondent's spouse/partner was not working. Interviewers defined the response categories as follows:
ILL OR DISABLED AND UNABLE TO WORK: Does not include temporarily out of work because of an illness.
RETIRED: Includes only retired people who are not working.
TAKING CARE OF HOME AND FAMILY: Includes "don't want to work" and "spouse doesn't want me to work."
CANNOT FIND WORK: Includes general difficulty finding work and difficulty finding work in a specific geographical or professional area.
OTHER: Includes "I'm just looking for work."
Note that only categories 1 through 5 appeared during the CATI interview. Other categories were created in coding "other specify" responses recorded verbatim by the interviewers.

Variable Name: LVOCTC

Label: Earned voc/tech certificate

Type: N

Length: 3

Question Num: L4

Question Text: Which degree or degrees [have you/has (SPOUSE/PARTNER)]earned? (CODE ALL THAT APPLY) [PROBE: Anything else?]

Description: This variable records whether the individual had earned a vocational/technical business certificate or diploma. Vocational/technical/business certificate or diploma was defined as proof that a student had completed training for a specific occupation, such as dental hygienist, nurse's aide, cosmetologist, welder, or truck driver. Interviewers did not include certificates of attendance or participation for short courses that do not qualify the student for a specific occupation. An individual did not actually have to be licensed for an occupation in order to be counted here. See also UBCPSED, UEDULEVL, or UHIGDEGR.

Variable Name: **RESPID**

Label: Respondent identification number

Type: C

Length: 10

Question Num: N/A

Question Text: N/A

Description: This is a unique number assigned to each respondent during survey processing. We included it as a convenience to researchers wishing to bring together interview records for the same respondent. The number is unique. However, one respondent may answer for two focal children. In this case, both focal children will share the same RESPID. Similarly, each respondent provided information on his or her spouse/partner as well as him or herself.

Variable Name: SEX

      Label: Gender

      Type: C

    Length: 2

Question Num: S6(SEX)/D1

Question Text: [FOR HOUSEHOLDS WITH CHILDREN: Now I'd like to ask about the children in your household who are under 18 years-old.]
[FOR HOUSEHOLDS WITHOUT CHILDREN: To find out who is eligible for the study, I'd like to ask about the people who usually live in your household who are under 65.]

Please tell me just their first name and age.

[FOR EACH CHILD/PERSON, ASK: Is this (child/person) (a boy or a girl/male or female)?]

Description: Gender was obtained for all household members either in the screener (S6) or the household roster in the extended interview (D1). It was only very occasionally missing (see the variable XSEX) and was imputed along with age when necessary. One of the reasons that it was imputed less often than age is that sex could be edited in some cases when a first name was given by the respondent.

Variable Name: TYPEINT

Label: Extended interview type

Type: C

Length: 2

Question Num: N/A

Question Text: N/A

Description: Option A1: First MKA interview in a household.

Option A2: Second MKA interview. The second MKA is related to the first MKA. The Option A2 respondent is in the same family as the Option A1 respondent.

Option A3: Second MKA interview in a household. The second MKA is not related to the first MKA. The Option A3 interview is not in the same family as the Option A1 respondent.

Option B1: First adult interview in a household without children. Note: a B1 interview is not possible with an A1 interview.

Option B2: Additional adult interview in a household with or without children. The additional adult is related to the first adult or the MKA.

Option B3: Additional adult interview in a household with or without children. The additional adult is not related to the first adult or the MKA. In other words, the Option B3 respondent is not in the same family as the Option A1 or the Option B1 respondent.

Option B4: Interviews with emancipated minors who are related to another interviewee in the household.

Option B5: Interviews with emancipated minors who are not related to another interviewee in the household.

Variable Name: U_HRSLY

Label: Hours worked per week last year

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable captures how many hours the sampled adult worked each week in the previous year. The values were based on responses to questions in section I (Employment and Earnings) of the questionnaire. For respondents who were working at the time of the survey for only one employer and who had worked for the same employer for one year or more, U_HRSLY is equal to the workers current usual hours of work (either IHRJBS, IHRSWK or IHRSWKN). For respondents who were mainly self-employed both at the time of the survey and last year, U_HRSLY is equal to the workers current usual hours of work (ISEHR). For all other respondents, U_HRSLY is equal to the hours that they usually worked per week at their main job last year.

Means:	Non-miss n	Min	Max	Mean
	57,816	1	126	41.00

Variable Name: U_LFSR

Label: Labor force status recode

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: Based on responses to questions in section I (Employment and Earnings) of the survey, this variable indicates the sampled adult's labor force status (whether he or she is working, looking for work, or not in the labor force). On the focal child data set, this variable refers to focal children who are also emancipated minors, MKAs or spouse/partners of MKAs.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	0	Not in labor force	14,507	20.55
	1	Looking for work	4,002	5.67
	2	Working	52,068	73.77

Variable Name: U_SOCPOV

Label: Social family income as % of poverty

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This constructed variable compares family income received during the year preceding the survey (e.g. 1996 family income for the 1997 NSAF) to the Census Bureau's Federal poverty thresholds for that year, given family size and numbers of children in the family. The social family includes not only married partners and their children, but also unmarried partners, all of their children, and members of the extended family (anyone related by blood, marriage, or adoption to the MKA, the spouse/partner, or their children). Information about the Census Bureau's poverty thresholds is available online at http://www.census.gov/hhes/poverty/povdef.html.

To determine family income, questions are asked about the amount of money income received in the preceding calendar year by each person in the sampled family, 15 years old and over. Sources of income include:

(a) Money wages or salary;
(b) Net income from self-employment;
(c) Social Security;
(d) Supplemental Security Income;
(e) Public assistance or welfare payments;
(f) Interest (on savings or bonds);
(g) Dividends, income from estates or trusts, or net rental income;
(h) Veterans' payment or unemployment and workmen's compensation;
(i) Private pensions or government employee pensions; and
(j) Alimony or child support, regular contributions from persons not living in the household, and other periodic income.

For earnings, this variable uses information reported in Section I: Employment and Earnings. Specifically, this included items on earnings from the year preceding the survey (items I49A - I76). For other sources of income (unearned income) received during the previous year, the variable uses information gathered in Section J: Family Income. Amounts that are reported from the receipt of vouchers or coupons from the welfare office to pay for special expenses (item J5) and food stamps (item J6) are not included in the calculation of family income.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	0.5	Family income < 50% (last yr)	2,670	3.78
	1	50%<=family inc<100% of pov line (last yr	4,903	6.95

	3	200%<=family inc<300% of pov line (last yr	12,840	18.19
	4	Family income >= 300% of poverty (last yr)	36,310	51.45

Variable Name: U_USBORN

Label: U.S.- or foreign-born

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable identifies whether household residents are "U.S.-" or "foreign-born". The foreign-born population includes all persons who are not U.S. citizens at birth. Conversely, the U.S.-born population is all persons who are U.S. citizens at birth. Most U.S.-born are born in the United States, but the U.S.-born population also includes persons born in Puerto Rico or another U.S. territory or outlying area (for instance, Guam, the U.S. Virgin Islands, American Samoa, Northern Marianas Islands, and the Marshall Islands). In addition, some persons born in foreign countries are considered part of the U.S.-born population because they were born to U.S. citizens residing outside the United States. Foreign-born persons include both naturalized citizens and non-citizens (see UIMMSTAT).

Respondents were asked where each household resident was born. For persons born outside the 50 states, the District of Columbia, Puerto Rico, and other U.S. territories and outlying areas, additional questions on U.S. citizenship followed. If a respondent answered that a household resident was a "non-citizen," then that person was coded as foreign-born. Additionally, if a respondent answered that the person was a "naturalized citizen," then they were also coded as foreign-born. A small number of focal children cases were imputed to be U.S.-born, although they were born abroad, because one or more of their parents was a native-born U.S. citizen.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	1	U.S.-born	61,144	86.63
	2	Foreign-born	9,433	13.37

Variable Name: U_USHRS

Label: Hours worked per week this year

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable indicates the number of hours the sampled adult usually worked each week in the current year. Depending on how the sampled adult was employed, each score for this variable was calculated from responses to questions in section I (Employment and Earnings).

Means:	Non-miss n	Min	Max	Mean
	52,010	1	126	41.78

Variable Name: U_WKSLY

Label: Weeks worked last year

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable records the number of weeks the sampled adult worked in the past year. This number was calculated based on questions from section I (Employment and Earnings) of the survey. The question from which the answer was derived varied according to the employment situation of the sampled adult.

Means:	Non-miss n	Min	Max	Mean
	57,816	1	52	45.70

Variable Name: UAGE

Label: Age (topcoded)

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: The variable UAGE provides the age for each sampled person, truncated at 85. Ages were asked about early in the NSAF. The first name of each household member was also obtained at this point so that further questions about each individual could be asked using his or her name. In a few rare cases, this variable was missing and was imputed.

Means:	Non-miss n	Min	Max	Mean
	70,577	15	85	39.79

Variable Name: **UB1REL**

Label: Relation to option b respondent 1

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable refers to the relationship of the sampled person to the childless adult respondent 1, obtained from the Household Roster section of the survey (Section D). The relationship classifications are not gender-specific. Researchers who desire gender information will have to combine this variable with the variable SEX in order to determine whether the sampled person is, for example, an aunt or uncle.

Variable Name: UB2REL

Label: Relation to option b respondent 2

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable refers to the relationship of the sampled person to the childless adult respondent 2, obtained from the Household Roster section of the survey (Section D). The relationship classifications are not gender-specific. Researchers who desire gender information will have to combine this variable with the variable SEX in order to determine whether the sampled person is, for example, an aunt or uncle.

Variable Name: UBCPSED

Label: Education level, CPS

Type: C

Length: 2

Question Num: N/A

Question Text: N/A

Description: This variable was created using responses to the question on highest level of schooling completed. Responses were coded according to the CPS three-level educational scale. Researchers may wish to use the imputation flag XBCPSED when analyzing this variable. This variable was used in the poststratification stage for creating adult weights.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	A	No HS diploma or GED	9,850	13.96
	B	HS diploma or GED, no bachelor's degree	41,287	58.50
	C	Bachelor's degree and higher	19,440	27.54

Variable Name: UBETH

Label: Hispanic

Type: C

Length: 2

Question Num: N/A

Question Text: N/A

Description: Hispanic origin was coded for all sampled persons (respondents, spouse/partners of respondents, and focal children) based on responses to Item O1 and imputations (when O1 was missing or unknown). The ethnicity of the child could be determined from this information if the MKA and their spouse/partner were both biological parents of the child. In a follow-up question, not included here, persons of Hispanic origin were asked to indicate what their specific origin was (e.g., Mexican-American, Chicano, Mexican, Puerto Rican, Cuban, other Hispanic).

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	H	Hispanic	9,372	13.28
	N	Non-Hispanic	61,205	86.72

Variable Name: UBLSPAMT

Label: Blurred amt of child support contributed

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable describes the amount of child support contributed by the sampled person in the last 12 months. For confidentiality reasons, this constructed variable was blurred and top-coded. For more information on NSAF data editing procedures, such as blurring and top-coding, see 1999 NSAF Methodology Report No. 10.

Means:	Non-miss n	Min	Max	Mean

Variable Name: UBRACE

Label: Race (3 category)

Type: C

Length: 2

Question Num: N/A

Question Text: N/A

Description: Race category was coded for all sampled persons (respondents, spouse/partners of respondents, and focal children) for Round 2 and subsequent rounds based on responses to Item O3 and imputations (when O3 was missing or unknown). The race of the focal child could be determined from this information if the MKA and his or her spouse/partner were both biological parents of the child and had the same race. This variable was used in the poststratification stage for creating the adult weights.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %

Variable Name: UCNGHL

Label: Fair/poor health status

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This is a binary variable created from item B3 (for children) or F1 (for adults) that assigns a value of 1 to those respondents who reported that they were in "fair" or "poor" health. Those who reported being in "excellent," "very good," or "good" health were assigned a value of 0 for this variable. In a few cases this variable was imputed.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	1	Fair or poor health	9,554	13.54
	2	Good, very good, or excellent health	61,023	86.46

Variable Name: UCONMED

Label: Edited confidence in health care

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable was derived from question B2 in section B of the questionnaire. In some cases, the information shown was imputed. Note that while the source question B2 was asked only of respondents, UCONMED has been placed on records for respondents, spouse/partners, and focal children.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	1	Extremely confident	18,620	26.38
	2	Very confident	29,764	42.17
	3	Somewhat confident	16,342	23.15
	4	Not too confident	4,169	5.91
	5	Not confident at all	1,682	2.38

Variable Name: UCPSID

Label: CPS family ID

Type: C

Length: 10

Question Num: N/A

Question Text: N/A

Description: CPS family ID is a unique number assigned to each family during survey processing. We included it as a convenience to researchers wishing to bring together interview records for the same CPS family. The number assigned will be the same on all files for the same family and, therefore, may be used to match records from one NSAF public use file to another. CPS family definition considers members of a family to be the householder, spouse of family householder, children in the family, and other relatives of the family householder.

Variable Name: **UCUREMP**

Label: Currently has employer coverage

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable assigns a value of 1 to persons who reported receiving employer sponsored health insurance coverage either directly or through another family member. Those who received a value of 1 may be receiving employer coverage exclusively or in combination with other types of health insurance coverage. This variable was created from variables E1-E5, E23, and E24.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	0	Person had no current employer coverage	22,716	32.19
	1	Person had current employer coverage	47,861	67.81

Variable Name: **UCURMEDC**

Label: Currently has Medicare coverage

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable flags those people who reported that they were currently receiving Medicare benefits. Those who received a value of 1 for this variable could have been covered solely by Medicare or alternatively could be receiving Medicare in combination with other types of health insurance. This variable was created from variables E13-E14 and E23.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	0	Person had no current Mediare coverage	68,540	97.11
	1	Person had current Mediare coverage	2,037	2.89

Variable Name: **UCURMISC**

Label: Currently has other coverage

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable assigns a value of 1 to those people who reported that they were currently receiving some kind of health insurance coverage in the verification question (E23). If their responses to the verification question did not fall into any of the pre-determined health insurance categories, they were flagged as receiving some form of miscellaneous coverage.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	0	Person had no current other specify coverage	70,337	99.66
	1	Person had current other specify coverage	240	0.34

Variable Name: **UCURNINS**

Label: Currently uninsured

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable assigns a value of 1 to those people who report that they are not currently enrolled in any health insurance plan. A verification question (E22) was designed to ensure that respondents are specifically asked about their uninsured status. Those who reported that they were receiving Indian Health Services were also categorized as uninsured and received a value of 1 for this variable.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	0	Person was not currently uninsured	59,174	83.84
	1	Person was currently uninsured	11,403	16.16

Variable Name: UCUROTH

Label: Currently has CHAMP/VA coverage

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable flags those people who reported that they were currently receiving CHAMPUS/TRICARE, CHAMP-VA, VA/Other Military health insurance. For those people that receive a value of 1, CHAMPUS may be the only form of health insurance coverage or it may be in combination with other types of insurance coverage. This variable was created from variables E15-E17 and E23.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	0	Person had no current Champus/IHS coverag	69,758	98.84
	1	Person had current Champus/IHS coverage	819	1.16

Variable Name: UCURPUB

Label: Currently has Medicaid/SCHIP/state cvrg

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable indicates whether someone had Medicaid, state program, or State Children's Health Insurance Program (SCHIP) coverage at the time of the survey. These three types of public programs are combined because the variables for each of the three different types of coverage were not designed for separate analysis. This variable was created from variables E18-E21B and E23.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	0	No current Medicaid/SCHIP/or state coverag	64,141	90.88
	1	Has current Medicaid/SCHIP/or state cvrg	6,436	9.12

Variable Name: **UCURPVT**

Label: Currently has private coverage

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable assigns a value of 1 to those respondents and children who reported having purchased a health plan directly from an insurance company which was not related to a current or past employer. People who received a value of 1 for this variable could have been enrolled in a private plan exclusively or in combination with other types of health insurance coverage. This variable was created from variables E7-E11, E23, and E24.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	0	Person had no current private coverage	66,919	94.82
	1	Person had current private coverage	3,658	5.18

Variable Name: UEDULEVL

Label: Highest level of education

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This derived variable indicates the highest grade or level of school that the sampled person ever completed. It is based essentially on the variable LHIGRAD, the questionnaire item that asked about the highest level of education completed. To create this variable, responses to that item were recoded based on data from the variables LHDEGR, LDEGRS, LGED, LHSDIP, LVOCTC, and LOTHDG, which all refer to various academic degrees the respondent may have earned (including GEDs and vocational certificates). For example, for a respondent who reported (in item LHIGRAD) that the highest level of education they had received was 12th grade but who later reported having received a high school diploma, the initial value was recoded on the basis of the additional information.

	14	Nonrelative, no own relatives in HH	573	0.81

Variable Name: UFAMID

Label: Social family ID

Type: C

Length: 10

Question Num: N/A

Question Text: N/A

Description: In addition to grouping respondents using CPS definition of a family, NSAF respondents were grouped according to a second family definition. This "social family" definition included not only married partners and their children, but also unmarried partners, all of their children, and members of the extended family (anyone related by blood, marriage, or adoption to the MKA, the spouse/partner, or their children).

This unique number was assigned to each such "family" during survey processing. We included it as a convenience to researchers wishing to bring together interview records for the same social family. The number assigned will be the same on all files for the same family and, therefore, may be used to match records from one NSAF public use file to another.

Variable Name: UFAMTYP

Label: CPS family type

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable is based on the CPS variable, FAMTYP, family type.

Variable Name: UHHDREL

Label: Detail household summary

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable is based on the CPS variable HHDREL, the detailed household summary, but there are slight differences. In CPS, HHDREL=3 means a child under 18 years, never married while HHDREL=4 means a child under 18 years, ever married. Since NSAF does not gather that information for everyone, we can only search for a spouse present or not present in the household. Also, while some people are coded as unrelated to the reference person, they may in fact have an indirect relationship by way of marriage (e.g., a person is married to the daughter of the reference person or a person whose parent is married to the reference person). The code checks for these situations in assigning UHHDREL. Values for this variable were coded based on RELHEAD.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	1	Householder	37,206	52.72
	2	Spouse of householder	23,614	33.46
	3	Chld of hshldr, single (no spouse in HH), <1	21	0.03
	4	Chld of hshldr, ever married (spou in HH), <	2	0.00
	5	Child of householder, 18 years and over	4,662	6.61
	6	Other relative of householder	1,595	2.26
	7	Nonrelative of householder	3,477	4.93

Variable Name: UHIGDEGR

Label: Highest educational degree

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable indicates the highest educational degree held by a sampled person. It provides a sharper, simpler measure of educational attainment than UEDULEVL (see variable UMHSGRAD) while preserving a range of possible responses. As with UEDULEVL, vocational and technical certificates are considered lower-level degrees than college diplomas (but higher than high school diplomas). In fact, they represent a separate educational track from the academic degrees that make up the rest of the UMHIGDEG scale. A high school diploma is ranked above a GED since the diploma has been found to contribute more to later earnings.

In reporting the highest degree earned, UMHIGDEG does not indicate whether all lower-level degrees have been earned. For example, a person with a bachelor's degree may or may not have earned an associate degree. As pointed out earlier, except for high school diplomas and GEDs (see UHSGRADU), there is no comprehensive way to make such distinctions. Also, in moving from highest educational level in UEDULEVL to highest degree in UMHIGDEG, only reported degrees are coded. If another degree logically stands between the highest reported degree and the highest level of schooling in UEDULEVL, it is not coded in UMHIGDEG. Thus, for example, if the highest degree is "associate" when the highest level of education is "completed some graduate or professional classes," no bachelor's degree is inferred. For this reason, the highest-degree variable cannot be thought of as a simple "rounding down" of educational level to the degree that could be assumed to precede it—sometimes the variable reflects an even larger jump.

This variable has not been imputed.

Variable Name: UHINS4

Label: Current insurance coverage hierarchy

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable classifies each sampled person's health insurance coverage at the time of the survey into four mutually exclusive groups constructed as a hierarchy. For instance, if someone identified having both employer-sponsored coverage and Medicaid, they were classified as having a value of 1 (Employer-Sponsored) for this variable. The order of the hierarchy was: employer-sponsored own, employer-sponsored dependent, Medicaid, state program, SCHIP, a plan purchased directly from an insurance company, Medicare, military, and other-unspecified type. After persons with multiple coverage plans have been classified according to the specified hierarchy, coverage types are collapsed into the four mutually exclusive groups: employer (including military coverage), Medicaid/State/SCHIP, other (including private, Medicare, and other), and uninsured. It is created using variables E1-E24.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	1	Employer	48,648	68.93
	2	Medicaid/State/CHIP	5,767	8.17
	3	Other	4,759	6.74
	4	Uninsured	11,403	16.16

Variable Name: UHSGRADU

Label: Received a high school diploma or GED

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable shows whether the respondent has a high school diploma or GED.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	1	GED, no HS diploma	3,590	5.09
	2	High school diploma	31,551	44.70
	3	GED or HS diploma (don't know which one)	25,591	36.26
	4	No GED or HS diploma	9,845	13.95

Variable Name: **UHSPGRP**

Label: Hispanic Subgroup (4 category)

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: If the sampled person is of Spanish or Hispanic origin, this variable indicates the subgroup of origin.

	3	Cuban	314	0.44
	4	Other	2,279	3.23

Variable Name: **UIMMSTAT**

Label: Immigration status

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable identifies whether or not a household resident is a "U.S.-born citizen"; "foreign-born, naturalized U.S. citizen"; or "foreign-born, non-citizen." U.S.-born citizens are born in the 50 U.S. states, the District of Columbia, Puerto Rico or another U.S. territory (for instance, Guam, the U.S. Virgin Islands, American Samoa, Northern Marianas Islands, and the Marshall Islands). Additionally, some persons born in foreign countries are considered U.S.-born citizens because they were born to U.S. citizens residing outside the United States. Naturalized citizens are foreign-born persons who have become U.S. citizens. Non-citizens are also foreign-born but have not yet become citizens (see U_USBORN).

Respondents were asked where all household residents were born. For persons born outside the 50 states, the District of Columbia, Puerto Rico, and other U.S. territories and outlying areas, additional questions on U.S. citizenship followed. A small number of focal children cases were imputed to be U.S.-born citizens, although they were born abroad, because one or more of their parents was a U.S.-born citizen.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	1	US-born citizen	61,144	86.63
	2	Foreign-born, naturalized US citizen	3,472	4.92
	3	Foreign-born, non-citizen	5,961	8.45

Variable Name: **UINCRPOV**

Label: CPS family income as % of poverty

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This constructed variable compares family income received during the year preceding the survey (e.g. 1996 family income for the 1997 NSAF) to the Census Bureau's Federal poverty thresholds for that year, given family size and numbers of children in the family. The family is composed of all household residents related by blood, marriage, or adoption. Information about the Census Bureau's poverty thresholds is available online at http://www.census.gov/hhes/poverty/povdef.html.

To determine family income, questions are asked about the amount of money income received in the preceding calendar year by each person in the sampled family, 15 years old and over. Sources of income include:

(a) Money wages or salary;
(b) Net income from self-employment;
(c) Social Security;
(d) Supplemental Security Income;
(e) Public assistance or welfare payments;
(f) Interest (on savings or bonds);
(g) Dividends, income from estates or trusts, or net rental income;
(h) Veterans' payment or unemployment and workmen's compensation;
(i) Private pensions or government employee pensions; and
(j) Alimony or child support, regular contributions from persons not living in the household, and other periodic income.

For earnings, this variable uses information reported in Section I: Employment and Earnings. Specifically, this included items on earnings from the year preceding the survey (items I49A - I76). For other sources of income (unearned income) received during the previous year, the variable uses information gathered in Section J: Family Income. Amounts that are reported from the receipt of vouchers or coupons from the welfare office to pay for special expenses (item J5) and food stamps (item J6) are not included in the calculation of family income.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	0.5	Family income < 50% (last yr)	3,406	4.83
	1	50%<=family inc<100% of pov line (last yr	5,089	7.21
	1.5	100%<=family inc<150% of pov line (last yr	6,590	9.34
	2	150%<=family inc<200% of pov line (last yr	7,316	10.37
	3	200%<=family inc<300% of pov line (last yr	12,684	17.97
	4	Family income >= 300% of poverty (last yr)	35,492	50.29

Variable Name: **UREGION**

Label: Region

Type: C

Length: 1

Question Num: N/A

Question Text: N/A

Description: In NSAF, we use the regional partitioning of the United States that was set up by the Census Bureau. The Census Bureau divides the United States into four regions, and within each region into divisions, nine in all. The regions are the Northeast, Midwest (formerly North Central), West, and South. The nine geographic divisions have been largely unchanged for the presentation of summary statistics since the 1910 Census:

NORTHEAST REGION. This region consists of two divisions: New England and the Middle Atlantic. New England has six states: Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont. The Middle Atlantic Division has three states: New Jersey, New York, and Pennsylvania.

MIDWEST REGION. This region also consists of two divisions: East North Central and West North Central. East North Central has five states: Illinois, Indiana, Michigan, Ohio, and Wisconsin. The West North Central Division has seven states: Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, and South Dakota.

WEST REGION. This region consists of the Mountain and Pacific Divisions. The Mountain Division has eight states: Arizona, Colorado, Idaho, Montana, Nevada, New Mexico, Utah, and Wyoming. The Pacific Division has five states: Alaska, California, Hawaii, Oregon, and Washington.

SOUTH REGION. The South Census Region has three divisions: East South Central, West South Central, and South Atlantic. The states are Alabama, Kentucky, Mississippi, and Tennessee for the East South Central Division and Arkansas, Louisiana, Oklahoma, and Texas for the West South Central Division. The South Atlantic Division includes the District of Columbia and the remaining states: Delaware, Florida, Georgia, Maryland, North Carolina, South Carolina, Virginia, and West Virginia.

For the telephone sample, the regions were derived from the area code of the telephone number. From the in-person component, the regions were obtained from the actual sample addresses. Divisions have been defined here, even though the public use files show only census region.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	1	Northeast	14,568	20.64
	2	Midwest	21,092	29.89

Variable Name: **USPEMREL**

Label: Rltnshp of this person to spouse of EM

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable refers to the relationship of the sampled person to the spouse of the emancipated minor, obtained from the Household Roster section of the survey (Section D). The relationship classifications are not gender-specific. Researchers who desire gender information will have to combine this variable with the variable SEX in order to determine whether the sampled person is, for example, an aunt or uncle.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %

	1	Self	9	0.01
	2	Spouse	5	0.01
	3	Unmarried partner	4	0.01
	51	Non-relative	1	0.00

Variable Name: **USUBFAM**

Label: CPS subfamily number

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable is a flag for subfamily assignment and is used in creating legal family ID numbers.

Values of USUBFAM are created based on HHCOUNT (number of persons in a household), SPOUSE, PARENT, and OTHREL.

If a person is the reference person, he/she is placed in the first subfamily.

The program cycles through the household roster, searching for spouses and children. Spouses and children are placed in the same subfamily unit as the initial person. Other relatives are also picked up and put into the same subfamily unit as the initial person.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	1		65,057	92.18
	2		5,049	7.15
	3		400	0.57
	4		58	0.08

	6		2	0.00

Variable Name: **WGPRNA0**

Label: Natl lvl adult pair full smpl wgt

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This is the national level survey weight. The weight reflects the original probability of selection of the household, the subsampling done in NSAF to reduce respondent burden, and adjustments made for nonresponse. The weight was further modified, as is customary in household surveys, to correct for net undercoverage. The specific population totals used in the coverage adjustment were obtained from the Census Bureau and are consistent with the concepts employed in the 2000 decennial census.

Variable Name: **WGPRNA1-WGPRNA60**

Label: Natl lvl adult pair replicate wgts

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This entry consists of 60 weights provided for researchers who wish to obtain sampling variance estimates using WesVar or other statistical software packages that use replicate weights. These are the replicate versions of the full sample weight and should be employed when variances are required for estimates. Issues of variance estimation are discussed in more detail in the NSAF methodology report series.

Variable Name: **WGPRST0**

Label: Site lvl adult pair full smpl wgt

	1	.D, .N, .R imputed to a non-missing value	10	0.01

Variable Name: XTASKS

Label: Imputation flag for FTASKS

Type: C

Length: 2

Question Num: N/A

Question Text: N/A

Description: This variable is an imputation flag for the variable FTASKS.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	0	Not imputed	70,506	99.90
	1	.D, .N, .R imputed to a non-missing value	23	0.03
	5	.I edited to non-missing value	48	0.07

Variable Name: XTEMP

Label: Imputation flag for ITEMP

Type: C

Length: 2

Question Num: N/A

Question Text: N/A

Description: This variable is an imputation flag for the variable ITEMP.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	0	Not imputed	70,559	99.97
	1	.D, .N, .R imputed to a non-missing value	2	0.00
	5	.I edited to non-missing value	16	0.02

Variable Name: XUNTLNG

Label: Imputation flag for IUNTLNG

Type: C

Length: 2

Question Num: N/A

Question Text: N/A

Description: This variable is an imputation flag for the variable IUNTLNG.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	0	Not imputed	70,271	99.57
	1	.D, .N, .R imputed to a non-missing value	220	0.31
	4	Non-missing value edited to .I	3	0.00
	5	.I edited to non-missing value	83	0.12

Variable Name: XWKDAY

Label: Imputation flag for IWKDAY

Type: C

Length: 2

Question Num: N/A

Question Text: N/A

Description: This variable is an imputation flag for the variable IWKDAY.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	0	Not imputed	70,292	99.60
	1	.D, .N, .R imputed to a non-missing value	236	0.33
	5	.I edited to non-missing value	49	0.07
