## About *Research Connections*

These data are made available by the Child Care and Early Education *Research Connections* (CCEERC) project, which promotes high quality research in child care and early education and the use of that research in policymaking. Our vision is that children are well cared for and have rich learning experiences, and their families are supported and able to work.

*Research Connections* is supported by the Child Care Bureau, Administration for Children and Families of the United States Department of Health and Human Services through a cooperative agreement with the National Center for Children in Poverty, Mailman School of Public Health at Columbia University, and its partner, the Inter-university Consortium for Political and Social Research, Institute for Social Research at the University of Michigan.

## NSAF PERSON FILE CODEBOOK

**Variable Name: DDADHERE**

Label: Non-FC's father lives in the HH

Type: N

Length: 3

Question Num: D7C

Question Text: Does (NAME)'s father live in the household?

Description: This question was asked of the first MKA, for each non-focal child for whom no person in the household had yet been identified as "father".

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	.D		6	0.00
	.I		116,948	85.08

	1	Yes	14,259	10.37
	2	No	6,236	4.54

---

**Variable Name: DHHOLDER**

Label: Owns or rents this home

Type: C

Length: 2

Question Num: D5a

Question Text: What is the name of the person or one of the persons who owns or rents this home?

Description: This question was asked to determine the householder in the 1999 and 2002 surveys. In the 1997 survey, the item MHHOLDER was used to determine the householder.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>

**NSAF PERSON FILE CODEBOOK**

**Variable Name: DLIVAWAY**

Label: Lives somewhere else mostly

Type: N

Length: 3

Question Num: D5

Question Text: Does (NAME) live somewhere else most of the time?

Description: This question refers to whether or not a member of the household lives somewhere else most of the time. It was not interpreted for the respondent. This question was asked of every person who reported in an earlier question that this household is not their usual residence.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	.D		64	0.05
	.I		136,420	99.24
	.R		18	0.01
	1	Yes	728	0.53
	2	No	231	0.17

**Variable Name: DLIVHERE**

Label: Lives here most of the time

Type: N

Length: 3

Question Num: D4

Question Text: Is this (NAME)'s usual residence, (where (NAME) lives most of the time)?

Description: The respondent was not provided with instruction on how to interpret "usual residence where a person lives most of the time."

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	.D		68	0.05

	2	No	954	0.69

## NSAF PERSON FILE CODEBOOK

**Variable Name: DMOMHERE**

Label: Non-FC's mother lives in the HH

Type: N

Length: 3

Question Num: D7A

Question Text: Does (NAME)'s mother live in the household?

Description: This question was asked of the first MKA, for each non-focal child for whom no person in the household had yet been identified as "mother".

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	.D		3	0.00
	.I		116,948	85.08
	.R		4	0.00

	2	No	1,366	0.99

**Variable Name: ECHK**

Label: Confirm that person is uninsured

Type: N

Length: 3

Question Num: E22

Question Text: According to the information you have provided, (NAME OF UNCOVERED TARGET GROUP MEMBER UNDER 65) currently does not have health care coverage. Is that correct?

Description: This was a check on information collected in earlier questions. The interviewer was to obtain positive confirmation that each individual who seemed to have no coverage was, in fact, not insured. A follow-up item corrected errors found here.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	.I		120,977	88.01

NSAF PERSON FILE CODEBOOK

**Variable Name: JSOCSEC**

Label: Person rcvd Social Security payments

Type: C

Length: 2

Question Num: J53

Question Text: Who received Social Security payments from the US government in 2001?

[PROBE: Anybody else?]

Description: Interviewers defined Social Security as payments from the U.S. government to workers who are at least 62 years old, to the severely disabled, and to dependents or survivors of workers. The worker must have contributed to the Social Security fund. Social Security checks typically arrive in gold-colored envelopes. Social Security is not the same as SSI. SSI income is not included here.

Question Num: S6(SEX)/D1

Question Text: [FOR HOUSEHOLDS WITH CHILDREN: Now I'd like to ask about the children in your household who are under 18 years-old.]  
[FOR HOUSEHOLDS WITHOUT CHILDREN: To find out who is eligible for the study, I'd like to ask about the people who usually live in your household who are under 65.]

Please tell me just their first name and age.

[FOR EACH CHILD/PERSON, ASK: Is this (child/person) (a boy or a girl/male or female)?]

Description: Gender was obtained for all household members either in the screener (S6) or the household roster in the extended interview (D1). It was only very occasionally missing (see the variable XSEX) and was imputed along with age when necessary. One of the reasons that it was imputed less often than age is that sex could be edited in some cases when a first name was given by the respondent.

**Variable Name: U\_FTPT**

Label: Full-time or part-time worker this year

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable indicates whether the sampled adult worked at a full- or part-time job during the current year. Responses were derived using the variable U\_USHRS. If U\_USHRS had a value greater than or equal to 35, the sampled adult was coded as full-time; if the value was less than 35, the sampled adult was considered to be part-time.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	.I		85,451	62.16
	1	Full-time	42,624	31.01
	2	Part-time	9,386	6.83

**Variable Name: U\_FTPTLY**

Label: Full-time or part-time worker last year

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable indicates whether the sampled adult worked at a full- or part-time job during the previous year. Responses were derived using the variable U\_HRSLY. If the U\_HRSLY variable had a value greater than or equal to 35, the sampled adult was coded as full-time; if the value was less than 35, the sampled adult was considered part-time.

**NSAF PERSON FILE CODEBOOK**

**Variable Name: U\_HRSLY**

Label: Hours worked per week last year

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable captures how many hours the sampled adult worked each week in the previous year. The values were based on responses to questions in section I (Employment and Earnings) of the questionnaire. For respondents who were working at the time of the survey for only one employer and who had worked for the same employer for one year or more, U\_HRSLY is equal to the workers current usual hours of work (either IHRJBS, IHRSWK or IHRSWKN). For respondents who were mainly self-employed both at the time of the survey and last year, U\_HRSLY is equal to the workers current usual hours of work (ISEHR). For all other respondents, U\_HRSLY is equal to the hours that they usually worked per week at their main job last year.

Means:	<u>Non-miss n</u>	<u>Min</u>	<u>Max</u>	<u>Mean</u>
	57,816	1	126	41.00

**Variable Name: U\_LFSR**

Label: Labor force status recode

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: Based on responses to questions in section I (Employment and Earnings) of the survey, this variable indicates the sampled adult's labor force status (whether he or she is working, looking for work, or not in the labor force). On the focal child data set, this variable refers to focal children who are also emancipated minors, MKAs or spouse/partners of MKAs.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	.1		66,884	48.66
	0	Not in labor force	14,507	10.55
	1	Looking for work	4,002	2.91
	2	Working	52,068	37.88

## NSAF PERSON FILE CODEBOOK

**Variable Name:** U\_SOCPOV

Label: Social family income as % of poverty

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This constructed variable compares family income received during the year preceding the survey (e.g. 1996 family income for the 1997 NSAF) to the Census Bureau's Federal poverty thresholds for that year, given family size and numbers of children in the family. The social family includes not only married partners and their children, but also unmarried partners, all of their children, and members of the extended family (anyone related by blood, marriage, or adoption to the MKA, the spouse/partner, or their children). Information about the Census Bureau's poverty thresholds is available online at <http://www.census.gov/hhes/poverty/povdef.html>.

To determine family income, questions are asked about the amount of money income received in the preceding calendar year by each person in the sampled family, 15 years old and over. Sources of income include:

- (a) Money wages or salary;
- (b) Net income from self-employment;
- (c) Social Security;
- (d) Supplemental Security Income;
- (e) Public assistance or welfare payments;
- (f) Interest (on savings or bonds);
- (g) Dividends, income from estates or trusts, or net rental income;
- (h) Veterans' payment or unemployment and workmen's compensation;
- (i) Private pensions or government employee pensions; and
- (j) Alimony or child support, regular contributions from persons not living in the household, and other periodic income.

For earnings, this variable uses information reported in Section I: Employment and Earnings. Specifically, this included items on earnings from the year preceding the survey (items I49A - I76). For other sources of income (unearned income) received during the previous year, the variable uses information gathered in Section J: Family Income. Amounts that are reported from the receipt of vouchers or coupons from the welfare office to pay for special expenses (item J5) and food stamps (item J6) are not included in the calculation of family income.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	0.5	Family income < 50% (last yr)	7,579	5.51
	1	50%<=family inc<100% of pov line (last yr	11,125	8.09
	1.5	100%<=family inc<150% of pov line (last yr	14,319	10.42
	2	150%<=family inc<200% of pov line (last yr	15,429	11.22
	3	200%<=family inc<300% of pov line (last yr	25,515	18.56
	4	Family income >= 300% of poverty (last yr)	63,494	46.19

**NSAF PERSON FILE CODEBOOK**

**Variable Name: U\_USBORN**

Label: U.S.- or foreign-born

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable identifies whether household residents are "U.S.-" or "foreign-born". The foreign-born population includes all persons who are not U.S. citizens at birth. Conversely, the U.S.-born population is all persons who are U.S. citizens at birth. Most U.S.-born are born in the United States, but the U.S.-born population also includes persons born in Puerto Rico or another U.S. territory or outlying area (for instance, Guam, the U.S. Virgin Islands, American Samoa, Northern Marianas Islands, and the Marshall Islands). In addition, some persons born in foreign countries are considered part of the U.S.-born population because they were born to U.S. citizens residing outside the United States. Foreign-born persons include both naturalized citizens and non-citizens (see UIMMSTAT).

Respondents were asked where each household resident was born. For persons born outside the 50 states, the District of Columbia, Puerto Rico, and other U.S. territories and outlying areas, additional questions on U.S. citizenship followed. If a respondent answered that a household resident was a "non-citizen," then that person was coded as foreign-born. Additionally, if a respondent answered that the person was a "naturalized citizen," then they were also coded as foreign-born. A small number of focal children cases were imputed to be U.S.-born, although they were born abroad, because one or more of their parents was a native-born U.S. citizen.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	1	U.S.-born	123,446	89.80
	2	Foreign-born	14,015	10.20

**Variable Name: U\_USHRS**

Label: Hours worked per week this year

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable indicates the number of hours the sampled adult usually worked each week in the current year. Depending on how the sampled adult was employed, each score for this variable was calculated from responses to questions in section I (Employment and Earnings).

Means:	<u>Non-miss n</u>	<u>Min</u>	<u>Max</u>	<u>Mean</u>
	52,010	1	126	41.78

## NSAF PERSON FILE CODEBOOK

**Variable Name:** U\_WKSLY

Label: Weeks worked last year

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable records the number of weeks the sampled adult worked in the past year. This number was calculated based on questions from section I (Employment and Earnings) of the survey. The question from which the answer was derived varied according to the employment situation of the sampled adult.

Means:	<u>Non-miss n</u>	<u>Min</u>	<u>Max</u>	<u>Mean</u>
	57,816	1	52	45.70

---

**Variable Name:** UAGE

Label: Age (topcoded)

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: The variable UAGE provides the age for each sampled person, truncated at 85. Ages were asked about early in the NSAF. The first name of each household member was also obtained at this point so that further questions about each individual could be asked using his or her name. In a few rare cases, this variable was missing and was imputed.

Means:	<u>Non-miss n</u>	<u>Min</u>	<u>Max</u>	<u>Mean</u>
	137,164	0	85	27.26

---

## NSAF PERSON FILE CODEBOOK

**Variable Name: UBIREL**

Label: Relation to option b respondent 1

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable refers to the relationship of the sampled person to the childless adult respondent 1, obtained from the Household Roster section of the survey (Section D). The relationship classifications are not gender-specific. Researchers who desire gender information will have to combine this variable with the variable SEX in order to determine whether the sampled person is, for example, an aunt or uncle.

---

**Variable Name: UCPSID**

Label: CPS family ID

Type: C

Length: 10

Question Num: N/A

Question Text: N/A

Description: CPS family ID is a unique number assigned to each family during survey processing. We included it as a convenience to researchers wishing to bring together interview records for the same CPS family. The number assigned will be the same on all files for the same family and, therefore, may be used to match records from one NSAF public use file to another. CPS family definition considers members of a family to be the householder, spouse of family householder, children in the family, and other relatives of the family householder.

---

## NSAF PERSON FILE CODEBOOK

	14	Nonrelative, no own relatives in HH	1,713	1.25

**Variable Name: UFAMID**

Label: Social family ID

Type: C

Length: 10

Question Num: N/A

Question Text: N/A

Description: In addition to grouping respondents using CPS definition of a family, NSAF respondents were grouped according to a second family definition. This “social family” definition included not only married partners and their children, but also unmarried partners, all of their children, and members of the extended family (anyone related by blood, marriage, or adoption to the MKA, the spouse/partner, or their children).

This unique number was assigned to each such “family” during survey processing. We included it as a convenience to researchers wishing to bring together interview records for the same social family. The number assigned will be the same on all files for the same family and, therefore, may be used to match records from one NSAF public use file to another.

## NSAF PERSON FILE CODEBOOK

**Variable Name: UFCIREL**

Label: Relation to focal child 1

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable refers to the relationship of the sampled person to the first focal child, obtained from the Household Roster section of the survey (Section D). The relationship classifications are not gender-specific. Researchers who desire gender information will have to combine this variable with the variable SEX in order to determine whether the sampled person is, for example, an aunt or uncle.

**NSAF PERSON FILE CODEBOOK**

**Variable Name: UHHDREL**

Label: Detail household summary

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable is based on the CPS variable HHDREL, the detailed household summary, but there are slight differences. In CPS, HHDREL=3 means a child under 18 years, never married while HHDREL=4 means a child under 18 years, ever married. Since NSAF does not gather that information for everyone, we can only search for a spouse present or not present in the household. Also, while some people are coded as unrelated to the reference person, they may in fact have an indirect relationship by way of marriage (e.g., a person is married to the daughter of the reference person or a person whose parent is married to the reference person). The code checks for these situations in assigning UHHDREL. Values for this variable were coded based on RELHEAD.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	1	Householder	39,798	28.95
	2	Spouse of householder	24,468	17.80
	3	Chld of hshldr, single (no spouse in HH), <1	49,360	35.91
	4	Chld of hshldr, ever married (spou in HH), <	7	0.01
	5	Child of householder, 18 years and over	9,326	6.78
	6	Other relative of householder	8,497	6.18
	7	Nonrelative of householder	6,005	4.37

**Variable Name: UHSPGRP**

NSAF PERSON FILE CODEBOOK

Variable Name: UIMMSTAT

Label: Immigration status

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable identifies whether or not a household resident is a "U.S.-born citizen"; "foreign-born, naturalized U.S. citizen"; or "foreign-born, non-citizen." U.S.-born citizens are born in the 50 U.S. states, the District of Columbia, Puerto Rico or another U.S. territory (for instance, Guam, the U.S. Virgin Islands, American Samoa, Northern Marianas Islands, and the Marshall Islands). Additionally, some persons born in foreign countries are considered U.S.-born citizens because they were born to U.S. citizens residing outside the United States. Naturalized citizens are foreign-born persons who have become U.S. citizens. Non-citizens are also foreign-born but have not yet become citizens (see U\_USBORN).

Respondents were asked where all household residents were born. For persons born outside the 50 states, the District of Columbia, Puerto Rico, and other U.S. territories and outlying areas, additional questions on U.S. citizenship followed. A small number of focal children cases were imputed to be U.S.-born citizens, although they were born abroad, because one or more of their parents was a U.S.-born citizen.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>

	2	Foreign-born, naturalized US citizen	4,632	3.37
	3	Foreign-born, non-citizen	9,383	6.83

---

## NSAF PERSON FILE CODEBOOK

**Variable Name: UINCRPOV**

Label: CPS family income as % of poverty

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This constructed variable compares family income received during the year preceding the survey (e.g. 1996 family income for the 1997 NSAF) to the Census Bureau's Federal poverty thresholds for that year, given family size and numbers of children in the family. The family is composed of all household residents related by blood, marriage, or adoption. Information about the Census Bureau's poverty thresholds is available online at <http://www.census.gov/hhes/poverty/povdef.html>.

To determine family income, questions are asked about the amount of money income received in the preceding calendar year by each person in the sampled family, 15 years old and over. Sources of income include:

- (a) Money wages or salary;
- (b) Net income from self-employment;
- (c) Social Security;
- (d) Supplemental Security Income;
- (e) Public assistance or welfare payments;
- (f) Interest (on savings or bonds);
- (g) Dividends, income from estates or trusts, or net rental income;
- (h) Veterans' payment or unemployment and workmen's compensation;
- (i) Private pensions or government employee pensions; and
- (j) Alimony or child support, regular contributions from persons not living in the household, and other periodic income.

For earnings, this variable uses information reported in Section I: Employment and Earnings. Specifically, this included items on earnings from the year preceding the survey (items I49A - I76). For other sources of income (unearned income) received during the previous year, the variable uses information gathered in Section J: Family Income. Amounts that are reported from the receipt of vouchers or coupons from the welfare office to pay for special expenses (item J5) and food stamps (item J6) are not included in the calculation of family income.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
0.5		Family income < 50% (last yr)	9,060	6.59

## NSAF PERSON FILE CODEBOOK

**Variable Name: UREGION**

Label: Region

Type: C

Length: 1

Question Num: N/A

Question Text: N/A

Description: In NSAF, we use the regional partitioning of the United States that was set up by the Census Bureau. The Census Bureau divides the United States into four regions, and within each region into divisions, nine in all. The regions are the Northeast, Midwest (formerly North Central), West, and South. The nine geographic divisions have been largely unchanged for the presentation of summary statistics since the 1910 Census:

NORTHEAST REGION. This region consists of two divisions: New England and the Middle Atlantic. New England has six states: Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont. The Middle Atlantic Division has three states: New Jersey, New York, and Pennsylvania.

MIDWEST REGION. This region also consists of two divisions: East North Central and West North Central. East North Central has five states: Illinois, Indiana, Michigan, Ohio, and Wisconsin. The West North Central Division has seven states: Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, and South Dakota.

WEST REGION. This region consists of the Mountain and Pacific Divisions. The Mountain Division has eight states: Arizona, Colorado, Idaho, Montana, Nevada, New Mexico, Utah, and Wyoming. The Pacific Division has five states: Alaska, California, Hawaii, Oregon, and Washington.

SOUTH REGION. The South Census Region has three divisions: East South Central, West South Central, and South Atlantic. The states are Alabama, Kentucky, Mississippi, and Tennessee for the East South Central Division and Arkansas, Louisiana, Oklahoma, and Texas for the West South Central Division. The South Atlantic Division includes the District of Columbia and the remaining states: Delaware, Florida, Georgia, Maryland, North Carolina, South Carolina, Virginia, and West Virginia.

For the telephone sample, the regions were derived from the area code of the telephone number. From the in-person component, the regions were obtained from the actual sample addresses. Divisions have been defined here, even though the public use files show only census region.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>

## NSAF PERSON FILE CODEBOOK

**Variable Name: USPEMREL**

Label: Rltnshp of this person to spouse of EM

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable refers to the relationship of the sampled person to the spouse of the emancipated minor, obtained from the Household Roster section of the survey (Section D). The relationship classifications are not gender-specific. Researchers who desire gender information will have to combine this variable with the variable SEX in order to determine whether the sampled person is, for example, an aunt or uncle.

Frequencies	<u>Value</u> <u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	.1	137,433	99.98

## NSAF PERSON FILE CODEBOOK

**Variable Name: USUBFAM**

Label: CPS subfamily number

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable is a flag for subfamily assignment and is used in creating legal family ID numbers.

Values of USUBFAM are created based on HHCOUNT (number of persons in a household), SPOUSE, PARENT, and OTHREL.

If a person is the reference person, he/she is placed in the first subfamily.

The program cycles through the household roster, searching for spouses and children. Spouses and children are placed in the same subfamily unit as the initial person. Other relatives are also picked up and put into the same subfamily unit as the initial person.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
