About *Research Connections*

These data are made available by the Child Care and Early Education *Research Connections* (CCEERC) project, which promotes high quality research in child care and early education and the use of that research in policymaking. Our vision is that children are well cared for and have rich learning experiences, and their families are supported and able to work.

Research Connections is supported by the Child Care Bureau, Administration for Children and Families of the United States Department of Health and Human Services through a cooperative agreement with the National Center for Children in Poverty, Mailman School of Public Health at Columbia University, and its partner, the Inter-university Consortium for Political and Social Research, Institute for Social Research at the University of Michigan.

NSAF RANDOM ADULT FILE CODEBOOK

Variable Name: DPREG

Label: Pregnant

Type: C

Length: 2

Question Num: D8D

Question Text: Who? (Is currently pregnant or expecting)

Description: This variable provides information on which member of the household, if anyone, was expecting a child or pregnant at the time of the interview. The question was not interpreted for the respondent.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	.D		1	0.00
	.I		55,556	98.72

	1	On	720	1.28

Variable Name: ECCEMP

Label: Had employer coverage sometime last year

Type: N

Length: 3

Question Num: E41

Question Text: What other kinds of health insurance coverage did (you/NAME) have? Was it insurance from a current or former employer or union, insurance purchased directly from an insurance company, Medicare, CHAMPUS, CHAMP-VA, VA, other military health insurance, Indian Health Service, Medicaid {or STATE NAME FOR MEDICAID} or {the state program called (STATE-SPECIFIC PROGRAM)} or some other type of coverage?

[PROBE: Please include plans obtained through persons not living with the family.]

[CODE ALL THAT APPLY.]

Description: This question identifies types of coverage for members of the target group who had health insurance coverage of some type at the time of the survey and whose health insurance changed during the past 12 months. The interviewer coded all that apply (up to five). Most people had one type of coverage. If they had the same type of coverage at two different times during the past 12 months, it was only coded once. Recorded here were workplace health insurance plans provided by a current employer, a former employer, or a union—including insurance provided through workers who do not live with the family.

Question Num: E37A

Question Text: For how many of the past 12 months did (you/NAME) have health insurance?

Description: The interviewer recorded the number of months the person had health insurance during the past 12 months for members of the target group who are currently uninsured. If the respondent reported less than one month, the interviewer rounded up and recorded 1. Some people may have been insured more than once during the year. For example, they could have been uninsured in January and February, enrolled in a publicly subsidized insurance plan from March through September, and then lost their insurance for the rest of the year. In these cases, the interviewer was prepared to help the respondent compute the total number of months with insurance.

Question Num: E38

Question Text: What kinds of health insurance coverage did (you/NAME) have during the time (you were/NAME was) insured? Was it insurance from a current or former employer or union, insurance purchased directly from an insurance company, Medicare, CHAMPUS, CHAMP-VA, VA, other military health insurance, Indian Health Service, Medicaid {or STATE NAME FOR MEDICAID} or {the state program called (STATE-SPECIFIC PROGRAM)} or some other type of coverage?

[PROBE: Remind respondent to include private plans obtained through persons not living with the family.]

[CODE ALL THAT APPLY.]

Description: This question identifies types of coverage for members of the target group who who are currently uninsured but who had health insurance sometime during the past 12 months. The interviewer coded all types that apply (up to three). Most people had one type of coverage. If they had the same type of coverage at two times during the past 12 months, it was only coded once. This variable recorded those individuals who were formerly covered by a state health insurance program.

	56,278	0	52	1.52

Variable Name: FDISBL

Label: Has health condition that limits work

Type: N

Length: 3

Question Num: F3

Question Text: [Do you/Does (SPOUSE/PARTNER)] have a physical, mental or other health condition that limits the kind or amount of work [you/(he/she)] can do?

Description: The interviewer defined physical, mental, or other health condition as an ongoing or chronic impairment or condition. This did not include pregnancy or childbirth as a condition. It also did not include an injury that occurred three months ago or less (unless it resulted in obvious permanent limitation), or the effects of an operation that took place three months ago or less (unless these effects were obviously permanent).

The interviewer also defined "limits work" as covering both working at a paid job or doing work around the house. Some examples of limits work included:

- (1) Can do only certain types of jobs;
- (2) Able to work only for short periods of time;
- (3) Has to rest often; can do certain household chores but not others;
- (4) Needs help doing housework because of the impairment or health condition;
- (5) Does not need help but requires longer than normal periods of rest between housekeeping activities.

NSAF RANDOM ADULT FILE CODEBOOK

Variable Name: FDOCT

Label: Number of doctor visits last year

Type: N

Length: 3

Question Num: F10

Question Text: During the past 12 months, how many times [have you/has (SPOUSE/PARTNER/CHILD)] seen a doctor? (Do not include the dental, emergency, or mental health visits, or the visits to other health professionals you just told me about. Also, do not include doctors seen while an overnight patient in the hospital).

Description: Definition of "see a doctor": The interviewer included visits with osteopaths, as well as with medical doctors. Telephone calls to doctors or doctors seen while a respondent was an overnight patient in the hospital were excluded. Also excluded were any dental, emergency room, or mental health visits already reported. The interviewer was prepared to work with the respondent to calculate the total number of visits since the date 12 months ago. The respondent was encouraged that their best estimate was fine. If the respondent volunteered that two or more doctors were seen in a single visit, then each doctor seen was counted as a separate visit. If the respondent volunteered that a single visit involved seeing one doctor and one or more of the doctor's assistants (who work under this doctor's supervision), the interviewer counted this as one doctor visit. Note that the codebook frequencies for this variable reflect the actual distribution of the data, while in the public use files, the data have been top-coded to the 99th percentile.

Question Num: F9

Question Text: During the past 12 months, how many times [have you/has (SPOUSE/PARTNER/CHILD)] seen a nurse practitioner, physician's assistant or midwife? (Do not include the dental, emergency, or mental health visits you just told me about. Also, do not include nurse practitioners, physician assistants or midwives seen while an overnight patient in the hospital).

Description: Definition of "see a nurse practitioner or physician assistant":

Visits with medical personnel other than doctors (i.e., does not include physician visits). The interviewer did not include telephone calls or medical personnel seen while a respondent was an overnight patient in a hospital, or any dental, emergency room, mental health, or doctor visits already reported. If the respondent volunteered that he or she saw a doctor and a nurse practitioner or physician assistant on the same visit, then the visit was counted as a doctor visit in F10, and was not counted here. The interviewer was prepared to work with the respondent to calculate the total number of visits since the date 12 months ago. The respondent was encouraged that their best estimate was fine. Note that the codebook frequencies for this variable reflect the actual distribution of the data, while in the public use files, the data have been top-coded to the 99th percentile.

Variable Name: FMENT

Label: Number of mental health visits last year

Type: N

Length: 3

Question Num: F8

Question Text: During the past 12 months, how many times [have you/has (SPOUSE/PARTNER/CHILD)] received mental health services, including mental health services received from a doctor, mental health counselor, or therapist? {And do not include treatment for substance abuse or smoking cessation.}

Description: This question was asked about the random adult and focal children 3 years of age or older. Definition of "mental health visit": Visits to psychiatrists, psychologists, psychiatric nurses, and clinical social workers who are professionally trained persons paid to listen and help respondents with problems. The interviewer included doctors, mental health counselors, school counselors, and therapists if they were seen for mental health care. Treatment for drug abuse or to quit smoking were not included. Note that the codebook frequencies for this variable reflect the actual distribution of the data, while in the public use files, the data have been top-coded to the 99th percentile.

Means:	<u>Non-miss n</u>	<u>Min</u>	<u>Max</u>	<u>Mean</u>

NSAF RANDOM ADULT FILE CODEBOOK

Variable Name: RESPID

Label: Respondent identification number

Type: C

Length: 10

Question Num: N/A

Question Text: N/A

Description: This is a unique number assigned to each respondent during survey processing. We included it as a convenience to researchers wishing to bring together interview records for the same respondent. The number is unique. However, one respondent may answer for two focal children. In this case, both focal children will share the same RESPID. Similarly, each respondent provided information on his or her spouse/partner as well as him or herself.

Variable Name: SEX

Label: Gender

Type: C

Length: 2

Question Num: S6(SEX)/D1

Question Text: [FOR HOUSEHOLDS WITH CHILDREN: Now I'd like to ask about the children in your household who are under 18 years-old.]
[FOR HOUSEHOLDS WITHOUT CHILDREN: To find out who is eligible for the study, I'd like to ask about the people who usually live in your household who are under 65.]

Please tell me just their first name and age.

[FOR EACH CHILD/PERSON, ASK: Is this (child/person) (a boy or a girl/male or female)?]

Description: Gender was obtained for all household members either in the screener (S6) or the household roster in the extended interview (D1). It was only very occasionally missing (see the variable XSEX) and was imputed along with age when necessary. One of the reasons that it was imputed less often than age is that sex could be edited in some cases when a first name was given by the respondent.

NSAF RANDOM ADULT FILE CODEBOOK

Variable Name: TYPEINT

Label: Extended interview type

Type: C

Length: 2

Question Num: N/A

Question Text: N/A

Description: Option A1: First MKA interview in a household.

Option A2: Second MKA interview. The second MKA is related to the first MKA. The Option A2 respondent is in the same family as the Option A1 respondent.

Option A3: Second MKA interview in a household. The second MKA is not related to the first MKA. The Option A3 interview is not in the same family as the Option A1 respondent.

Option B1: First adult interview in a household without children. Note: a B1 interview is not possible with an A1 interview.

Option B2: Additional adult interview in a household with or without children. The additional adult is related to the first adult or the MKA.

Option B3: Additional adult interview in a household with or without children. The additional adult is not related to the first adult or the MKA. In other words, the Option B3 respondent is not in the same family as the Option A1 or the Option B1 respondent.

Option B4: Interviews with emancipated minors who are related to another interviewee in the household.

Option B5: Interviews with emancipated minors who are not related to another interviewee in the household.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>

Question Num: N/A

Question Text: N/A

Description: This constructed variable indicates whether the family currently receives food stamps.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	1	Family currently receives food stamps	4,566	8.11
	2	Family currently does not receive food stamp	51,712	91.89

Variable Name: U_HRSLY

Label: Hours worked per week last year

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable captures how many hours the sampled adult worked each week in the previous year. The values were based on responses to questions in section I (Employment and Earnings) of the questionnaire. For respondents who were working at the time of the survey for only one employer and who had worked for the same employer for one year or more, U_HRSLY is equal to the workers current usual hours of work (either IHRJBS, IHRSWK or IHRSWKN). For respondents who were mainly self-employed both at the time of the survey and last year, U_HRSLY is equal to the workers current usual hours of work (ISEHR). For all other respondents, U_HRSLY is equal to the hours that they usually worked per week at their main job last year.

Means:	<u>Non-miss n</u>	<u>Min</u>	<u>Max</u>	<u>Mean</u>
	44,658	1	126	40.71

NSAF RANDOM ADULT FILE CODEBOOK

Variable Name: U_LFSR

Label: Labor force status recode

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: Based on responses to questions in section I (Employment and Earnings) of the survey, this variable indicates the sampled adult's labor force status (whether he or she is working, looking for work, or not in the labor force). On the focal child data set, this variable refers to focal children who are also emancipated minors, MKAs or spouse/partners of MKAs.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	0	Not in labor force	12,521	22.25
	1	Looking for work	2,868	5.10
	2	Working	40,889	72.66

NSAF RANDOM ADULT FILE CODEBOOK

Variable Name: U_SOCPOV

Label: Social family income as % of poverty

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This constructed variable compares family income received during the year preceding the survey (e.g. 1996 family income for the 1997 NSAF) to the Census Bureau's Federal poverty thresholds for that year, given family size and numbers of children in the family. The social family includes not only married partners and their children, but also unmarried partners, all of their children, and members of the extended family (anyone related by blood, marriage, or adoption to the MKA, the spouse/partner, or their children). Information about the Census Bureau's poverty thresholds is available online at <http://www.census.gov/hhes/poverty/povdef.html>.

To determine family income, questions are asked about the amount of money income received in the preceding calendar year by each person in the sampled family, 15 years old and over. Sources of income include:

- (a) Money wages or salary;
- (b) Net income from self-employment;
- (c) Social Security;
- (d) Supplemental Security Income;
- (e) Public assistance or welfare payments;
- (f) Interest (on savings or bonds);
- (g) Dividends, income from estates or trusts, or net rental income;
- (h) Veterans' payment or unemployment and workmen's compensation;
- (i) Private pensions or government employee pensions; and
- (j) Alimony or child support, regular contributions from persons not living in the household, and other periodic income.

For earnings, this variable uses information reported in Section I: Employment and Earnings. Specifically, this included items on earnings from the year preceding the survey (items I49A - I76). For other sources of income (unearned income) received during the previous year, the variable uses information gathered in Section J: Family Income. Amounts that are reported from the receipt of vouchers or coupons from the welfare office to pay for special expenses (item J5) and food stamps (item J6) are not included in the calculation of family income.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %

Variable Name: U_WKSLY

Label: Weeks worked last year

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable records the number of weeks the sampled adult worked in the past year. This number was calculated based on questions from section I (Employment and Earnings) of the survey. The question from which the answer was derived varied according to the employment situation of the sampled adult.

Means:	<u>Non-miss n</u>	<u>Min</u>	<u>Max</u>	<u>Mean</u>
	44,740	1	52	45.24

Variable Name: UAGE

Label: Age (topcoded)

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: The variable UAGE provides the age for each sampled person, truncated at 85. Ages were asked about early in the NSAF. The first name of each household member was also obtained at this point so that further questions about each individual could be asked using his or her name. In a few rare cases, this variable was missing and was imputed.

NSAF RANDOM ADULT FILE CODEBOOK

Variable Name: UANYMO

Label: Months of any insurance coverage

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable uses questions E1-E24 and E37-E43 in Section E of the survey to determine the number of months in the past year the person had any type of insurance coverage.

Means:	<u>Non-miss n</u>	<u>Min</u>	<u>Max</u>	<u>Mean</u>
	56,278	0	12	9.82

Variable Name: UBIREL

Label: Relation to option b respondent 1

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable refers to the relationship of the sampled person to the childless adult respondent 1, obtained from the Household Roster section of the survey (Section D). The relationship classifications are not gender-specific. Researchers who desire gender information will have to combine this variable with the variable SEX in order to determine whether the sampled person is, for example, an aunt or uncle.

NSAF RANDOM ADULT FILE CODEBOOK

Variable Name: UCNGHL

Label: Fair/poor health status

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This is a binary variable created from item B3 (for children) or F1 (for adults) that assigns a value of 1 to those respondents who reported that they were in "fair" or "poor" health. Those who reported being in "excellent," "very good," or "good" health were assigned a value of 0 for this variable. In a few cases this variable was imputed.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	1	Fair or poor health	8,159	14.50
	2	Good, very good, or excellent health	48,119	85.50

Variable Name: UCPSID

Label: CPS family ID

Type: C

Length: 10

Question Num: N/A

Question Text: N/A

Description: CPS family ID is a unique number assigned to each family during survey processing. We included it as a convenience to researchers wishing to bring together interview records for the same CPS family. The number assigned will be the same on all files for the same family and, therefore, may be used to match records from one NSAF public use file to another. CPS family definition considers members of a family to be the householder, spouse of family householder, children in the family, and other relatives of the family householder.

NSAF RANDOM ADULT FILE CODEBOOK

Variable Name: UCURCVG2

Label: Current coverage

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: For this created variable, a nine-level hierarchy was employed to indicate the specific type of health insurance coverage the respondent currently uses. Each MKA was assigned a value on the nine-level scale according to his or her answers to several of the questions in section E (Health Care Coverage) of the survey, dealing with health insurance coverage. Users may wish to keep in mind that one or more of the component variables used in the creation of this variable may have been imputed.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	1	Current employer - own coverage	23,977	42.60

NSAF RANDOM ADULT FILE CODEBOOK

Variable Name: UEDULEVL

Label: Highest level of education

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This derived variable indicates the highest grade or level of school that the sampled person ever completed. It is based essentially on the variable LHIGRAD, the questionnaire item that asked about the highest level of education completed. To create this variable, responses to that item were recoded based on data from the variables LHDEGR, LDEGRS, LGED, LHSDIP, LVOCTC, and LOTHDG, which all refer to various academic degrees the respondent may have earned (including GEDs and vocational certificates). For example, for a respondent who reported (in item LHIGRAD) that the highest level of education they had received was 12th grade but who later reported having received a high school diploma, the initial value was recoded on the basis of the additional information.

NSAF RANDOM ADULT FILE CODEBOOK

Variable Name: UEMREL

Label: Rltnshp of this person to EM

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable refers to the relationship of the sampled person to the emancipated minor, obtained from the Household Roster section of the survey (Section D). The relationship classifications are not gender-specific. Researchers who desire gender information will have to combine this variable with the variable SEX in order to determine whether the sampled person is, for example, an aunt or uncle.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	.1		56,229	99.91
	1	Self	31	0.06
	2	Spouse	10	0.02
	3	Unmarried partner	6	0.01
	38	Sibling	1	0.00
	51	Non-relative	1	0.00

Variable Name: UEXPRRP

Label: Expanded rltm to ref person (CPS)

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable is based on the CPS variable, A-EXPRRP, expanded relationship to the reference person. Values for UEXPRRP were coded based on RELHEAD.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	1	Reference person with relatives in HH	24,982	44.39
	2	Reference person, no relatives in HH	6,934	12.32

	13	Partner/roommate	1,592	2.83
	14	Nonrelative, no own relatives in HH	678	1.20

NSAF RANDOM ADULT FILE CODEBOOK

Variable Name: UFAMID

Label: Social family ID

Type: C

Length: 21

Question Num: N/A

Question Text: N/A

Description: In addition to grouping respondents using CPS definition of a family, NSAF respondents were grouped according to a second family definition. This “social family” definition included not only married partners and their children, but also unmarried partners, all of their children, and members of the extended family (anyone related by blood, marriage, or adoption to the MKA, the spouse/partner, or their children).

This unique number was assigned to each such “family” during survey processing. We included it as a convenience to researchers wishing to bring together interview records for the same social family. The number assigned will be the same on all files for the same family and, therefore, may be used to match records from one NSAF public use file to another.

Variable Name: UFAMTYP

Label: CPS family type

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable is based on the CPS variable, FAMTYP, family type.

NSAF RANDOM ADULT FILE CODEBOOK

Variable Name: UHHDREL

Label: Detail household summary

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable is based on the CPS variable HHDREL, the detailed household summary, but there are slight differences. In CPS, HHDREL=3 means a child under 18 years, never married while HHDREL=4 means a child under 18 years, ever married. Since NSAF does not gather that information for everyone, we can only search for a spouse present or not present in the household. Also, while some people are coded as unrelated to the reference person, they may in fact have an indirect relationship by way of marriage (e.g., a person is married to the daughter of the reference person or a person whose parent is married to the reference person). The code checks for these situations in assigning UHHDREL. Values for this variable were coded based on RELHEAD.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	1	Householder	31,916	56.71
	2	Spouse of householder	15,600	27.72
	4	Chld of hshldr, ever married (spou in HH), <	29	0.05
	5	Child of householder, 18 years and over	4,981	8.85
	6	Other relative of householder	1,250	2.22
	7	Nonrelative of householder	2,502	4.45

Variable Name: UHICOV

Label: Current coverage - three level hierarchy

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: The value for UHICOV ranges from 1 through 3 dividing current health insurance coverage into three broad categories: privately insured, publicly insured, and uninsured. If the survey response was missing for this variable, it was imputed, as described in Report No. 10 in this series. For more information on health insurance coverage, see Rajan, Zuckerman, and Brennan (1999).

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	1	Private coverage	39,161	69.58
	2	Public coverage	7,119	12.65
	3	Uninsured	9,998	17.77

NSAF RANDOM ADULT FILE CODEBOOK

Variable Name: UHIGDEGR

Label: Highest educational degree

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable indicates the highest educational degree held by a sampled person. It provides a sharper, simpler measure of educational attainment than UEDULEVL (see variable UMHSGRAD) while preserving a range of possible responses. As with UEDULEVL, vocational and technical certificates are considered lower-level degrees than college diplomas (but higher than high school diplomas). In fact, they represent a separate educational track from the academic degrees that make up the rest of the UMHSGRAD scale. A high school diploma is ranked above a GED since the diploma has been found to contribute more to later earnings.

In reporting the highest degree earned, UHIGDEGR does not indicate whether all lower-level degrees have been earned. For example, a person with a bachelor's degree may or may not have earned an associate degree. As pointed out earlier, except for high school diplomas and GEDs (see UHSGRADU), there is no comprehensive way to make such distinctions. Also, in moving from highest educational level in UEDULEVL to highest degree in UHIGDEGR, only reported degrees are coded. If another degree logically stands between the highest reported degree and the highest level of schooling in UEDULEVL, it is not coded in UHIGDEGR. Thus, for example, if the highest degree is "associate" when the highest level of education is "completed some graduate or professional classes," no bachelor's degree is inferred. For this reason, the highest-degree variable cannot be thought of as a simple "rounding down" of educational level to the degree that could be assumed to precede it—sometimes the variable reflects an even larger jump.

This variable has not been imputed.

NSAF RANDOM ADULT FILE CODEBOOK

Variable Name: UHINS4

Label: Current insurance coverage hierarchy

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable classifies each sampled person's health insurance coverage at the time of the survey into four mutually exclusive groups constructed as a hierarchy. For instance, if someone identified having both employer-sponsored coverage and Medicaid, they were classified as having a value of 1 (Employer-Sponsored) for this variable. The order of the hierarchy was: employer-sponsored own, employer-sponsored dependent, Medicaid, state program, SCHIP, a plan purchased directly from an insurance company, Medicare, military, and other-unspecified type. After persons with multiple coverage plans have been classified according to the specified hierarchy, coverage types are collapsed into the four mutually exclusive groups: employer (including military coverage), Medicaid/State/SCHIP, Other (including private, Medicare, and other), and uninsured. It is created using variables E1-E24.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	1	Employer	36,705	65.22
	2	Medicaid/State/CHIP	4,882	8.67

NSAF RANDOM ADULT FILE CODEBOOK

Variable Name: UINCRPOV

Label: CPS family income as % of poverty

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This constructed variable compares family income received during the year preceding the survey (e.g. 1996 family income for the 1997 NSAF) to the Census Bureau's Federal poverty thresholds for that year, given family size and numbers of children in the family. The family is composed of all household residents related by blood, marriage, or adoption. Information about the Census Bureau's poverty thresholds is available online at <http://www.census.gov/hhes/poverty/povdef.html>.

To determine family income, questions are asked about the amount of money income received in the preceding calendar year by each person in the sampled family, 15 years old and over. Sources of income include:

- (a) Money wages or salary;
- (b) Net income from self-employment;
- (c) Social Security;
- (d) Supplemental Security Income;
- (e) Public assistance or welfare payments;
- (f) Interest (on savings or bonds);
- (g) Dividends, income from estates or trusts, or net rental income;
- (h) Veterans' payment or unemployment and workmen's compensation;
- (i) Private pensions or government employee pensions; and
- (j) Alimony or child support, regular contributions from persons not living in the household, and other periodic income.

For earnings, this variable uses information reported in Section I: Employment and Earnings. Specifically, this included items on earnings from the year preceding the survey (items I49A - I76). For other sources of income (unearned income) received during the previous year, the variable uses information gathered in Section J: Family Income. Amounts that are reported from the receipt of vouchers or coupons from the welfare office to pay for special expenses (item J5) and food stamps (item J6) are not included in the calculation of family income.

Variable Name: UPSTPUB

Label: Any past year Medicaid/SCHIP/state cvrg

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable indicates whether or not the person had coverage through Medicaid, a state program, or the State Children's Health Insurance Program (SCHIP) at any time during the past 12 months. It is constructed from questions E18-E21B, E23, E38, and E41. These three types of public programs are combined because the variables for each of the three different types of coverage were not designed for separate analysis.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	0	No Medicaid/SCHIP/state program cvrg last	49,967	88.79
	1	Had Medicaid/SCHIP/state cvrg last yr	6,311	11.21

Variable Name: UPSTPVT

Label: Any past year private coverage

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable indicates whether or not the person had coverage through a plan purchased directly from an insurance company (not related to a current or past employer) at any time during the past 12 months. It is constructed from questions E7-E11, E23, E24, E38, and E41.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	0	Person had no private cvrg in the 12 precedi	52,379	93.07
	1	Person had prvt cvrg for some of 12 precedin	3,899	6.93

Variable Name: URACETH

Label: Race/ethnicity

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable describes each sampled person's race and ethnicity based on values of the hispanic origin variable UBETH and the four category race variable UBRACE4.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	1	Hispanic	5,800	10.31
	2	Black Non-Hispanic	6,630	11.78
	3	Other Non-Hispanic	43,848	77.91

NSAF RANDOM ADULT FILE CODEBOOK

Variable Name: UREGION

Label: Region

Type: C

Length: 1

Question Num: N/A

Question Text: N/A

Description: In NSAF, we use the regional partitioning of the United States that was set up by the Census Bureau. The Census Bureau divides the United States into four regions, and within each region into divisions, nine in all. The regions are the Northeast, Midwest (formerly North Central), West, and South. The nine geographic divisions have been largely unchanged for the presentation of summary statistics since the 1910 Census:

NORTHEAST REGION. This region consists of two divisions: New England and the Middle Atlantic. New England has six states: Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont. The Middle Atlantic Division has three states: New Jersey, New York, and Pennsylvania.

MIDWEST REGION. This region also consists of two divisions: East North Central and West North Central. East North Central has five states: Illinois, Indiana, Michigan, Ohio, and Wisconsin. The West North Central Division has seven states: Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, and South Dakota.

WEST REGION. This region consists of the Mountain and Pacific Divisions. The Mountain Division has eight states: Arizona, Colorado, Idaho, Montana, Nevada, New Mexico, Utah, and Wyoming. The Pacific Division has five states: Alaska, California, Hawaii, Oregon, and Washington.

SOUTH REGION. The South Census Region has three divisions: East South Central, West South Central, and South Atlantic. The states are Alabama, Kentucky, Mississippi, and Tennessee for the East South Central Division and Arkansas, Louisiana, Oklahoma, and Texas for the West South Central Division. The South Atlantic Division includes the District of Columbia and the remaining states: Delaware, Florida, Georgia, Maryland, North Carolina, South Carolina, Virginia, and West Virginia.

For the telephone sample, the regions were derived from the area code of the telephone number. From the in-person component, the regions were obtained from the actual sample addresses. Divisions have been defined here, even though the public use files show only census region.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	1	Northeast	12,805	22.75
	2	Midwest	16,409	29.16
	3	South	14,549	25.85
	4	West	12,515	22.24

Variable Name: USUBFAM

Label: CPS subfamily number

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable is a flag for subfamily assignment and is used in creating CPS family ID numbers.

Values of USUBFAM are created based on HHCOUNT (number of persons in a household), SPOUSE, PARENT, and OTHREL.

If a person is the reference person, he/she is placed in the first subfamily.

The program cycles through the household roster, searching for spouses and children. Spouses and children are placed in the same subfamily unit as the initial person. Other relatives are also picked up and put into the same subfamily unit as the initial person.

Variable Name: WGRNNA0

Label: Natl lvl random adult full smpl wgt

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This is the national level survey weight. The weight reflects the original probability of selection of the household, the subsampling done in NSAF to reduce respondent burden, and adjustments made for nonresponse. The weight was further modified, as is customary in household surveys, to correct for net undercoverage. The specific population totals used in the coverage adjustment were obtained from the Census Bureau and are consistent with the concepts employed in the 2000 decennial census.

Question Text: N/A

Description: This variable is an imputation flag for the variables BHLTHP (FC) and FHLTHP (RN).

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	0	Not imputed	56,151	99.77
	1	.D, .N, .R imputed to a non-missing value	127	0.23

Variable Name: XHLTHS

Label: Imputation flag for FHLTHS

Type: C

Length: 1

Question Num: N/A

Question Text: N/A

Description: This variable is an imputation flag for the variable FHLTHS.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	0	Not imputed	56,159	99.79
	1	.D, .N, .R imputed to a non-missing value	119	0.21

Variable Name: XHOSP

Label: Imputation flag for FHOSP

Type: C

Length: 1

Question Num: N/A

Question Text: N/A

Description: This variable is an imputation flag for the variable FHOSP.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	0	Not imputed	56,202	99.86
	1	.D, .N, .R imputed to a non-missing value	76	0.14

NSAF RANDOM ADULT FILE CODEBOOK

Variable Name: XHPROF

Label: Imputation flag for FHPROF

Type: C

Length: 1

Question Num: N/A

Question Text: N/A

Description: This variable is an imputation flag for the variable FHPROF.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	0	Not imputed	55,538	98.69
	1	.D, .N, .R imputed to a non-missing value	740	1.31

Variable Name: XMENT

Label: Imputation flag for FMENT

Type: C

Length: 1

Question Num: N/A

Question Text: N/A

Description: This variable is an imputation flag for the variable FMENT.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	0	Not imputed	55,990	99.49
	1	.D, .N, .R imputed to a non-missing value	288	0.51

Variable Name: XNCEMP

Label: Imputation flag for ENCEMP

Type: C

Length: 1

Question Num: N/A

Question Text: N/A

Description: This variable is an imputation flag for the variable ENCEMP.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	0	Not imputed	55,848	99.24
	1	.D, .N, .R imputed to a non-missing value	430	0.76
