About *Research Connections*

These data are made available by the Child Care and Early Education *Research Connections* (CCEERC) project, which promotes high quality research in child care and early education and the use of that research in policymaking. Our vision is that children are well cared for and have rich learning experiences, and their families are supported and able to work.

Research Connections is supported by the Child Care Bureau, Administration for Children and Families of the United States Department of Health and Human Services through a cooperative agreement with the National Center for Children in Poverty, Mailman School of Public Health at Columbia University, and its partner, the Inter-university Consortium for Political and Social Research, Institute for Social Research at the University of Michigan.

NSAF ADULT PAIR FILE CODEBOOK

Variable Name: DKIDOH

Label: Male MKA/resp has other chldrn out of HH

Type: N

Length: 3

Question Num: D8B

Question Text: (Do you/Does (SPOUSE NAME)) have any children under 18 years of age living outside of the household?

Description: This variable refers to whether or not the respondent's spouse has any children under 18 years of age living outside of the household. It was not interpreted for the respondent.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>

	2	No	31,911	42.71

Variable Name: FDISBL

Label: Has health condition that limits work

Type: N

Length: 3

Question Num: F3

Question Text: [ASK F3 OF BOTH MKA AND SPOUSE/PARTNER] [Do you/Does (SPOUSE/PARTNER)] have a physical, mental or other health condition that limits the kind or amount of work [you/(he/she)] can do?

Description: The interviewer defined physical, mental, or other health condition as an ongoing or chronic impairment or condition. This did not include pregnancy or childbirth as a condition. It also did not include an injury that occurred three months ago or less (unless it resulted in obvious permanent limitation), or the effects of an operation that took place three months ago or less (unless these effects were obviously permanent).

The interviewer also defined "limits work" as covering both working at a paid job or doing work around the house. Some examples of limits work included:

- (1) Can do only certain types of jobs;
- (2) Able to work only for short periods of time;
- (3) Has to rest often; can do certain household chores but not others;
- (4) Needs help doing housework because of the impairment or health condition;
- (5) Does not need help but requires longer than normal periods of rest between housekeeping activities.

NSAF ADULT PAIR FILE CODEBOOK

Variable Name: FHLTHS

Label: Current health status

Type: N

Length: 3

Question Num: F1

Question Text: [ASK F1 OF BOTH MKA AND SPOUSE/PARTNER] I'd like to talk about [(SPOUSE/PARTNER)'s or your] health status. In general, would you say [your/ (his/her)] health is . . .

Description: In asking this question the interviewer was to clearly state the list of alternative responses. If the respondent gave an answer other than one of the choices listed on the questionnaire (such as "pretty good") or otherwise showed that he or she did not understand, the interviewer was to ask the question again, starting with the phrase "in general."

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>

NSAF ADULT PAIR FILE CODEBOOK

Variable Name: GOPAR

Label: Non-custodial parent helps pay chld care

Type: N

Length: 3

Question Num: G57

Question Text: Who or what agency helps to pay for child care?

[CODE ALL THAT APPLY]

Description: This variable was coded "yes" if a non-custodial parent helped the family pay for child care. This included child-care assistance for one or more children in the household from a parent who does not live with the children. Only payments specific to child care were considered valid; child support was not included if none of the child support amount was designated specifically for child care.

	1	On	487	0.65

NSAF ADULT PAIR FILE CODEBOOK

Variable Name: GOTPAY

Label: Other pay for part of child care cost

Type: N

Length: 3

Question Num: G56

Question Text: Does anyone else pay for all or part of the cost of the care for [(CHILD1)/(CHILD2)/any of your children under age 13]? By this I mean a government agency, your employer or someone outside your household?

Description: Some low-income families receive child care from centers or other programs that are free of charge or of minimal cost to the parent. Often this means that some other agency (such as the government or an employer) is covering the rest of the child care costs. This question covered child-care voucher programs and situations in which someone outside the household contributed to the cost of child care, such as a divorced parent or a grandparent.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	.D		27	0.04
	.I		60,205	80.58
	.R		8	0.01
	1	Yes	1,419	1.90
	2	No	13,060	17.48

Variable Name: GPAY

Label: Pay for all child care used last month

Type: N

Length: 3

Question Num: G52

Question Text: Now think about all the child care arrangements and programs you use regularly for [(CHILD1)/(CHILD2)/all your children under age 13] while you worked, were in school or looked for work. How much did you pay for all child care arrangements and programs used in the last month?]

[IF NECESSARY, SAY: If it is easier for you, you can tell us what you paid, in a typical week of the last month?]

Description: This variable asked the respondent to estimate the total amount of money she or he paid during the last month for all child care used while she or he worked at a job for pay, looked for a job, went to school, or went to a job training program. The respondent was instructed to include child care costs for all of her or his children age 12 or younger. Many parents pay a single amount for child-care arrangements that actually cover more than one child. In other cases, it was necessary to help the respondent count up separate costs for each child in care. If the respondent had difficulty providing an estimate for the entire month, the respondent was asked to report an estimate for a typical week during the month. The variable GPAY notes only whether an amount was given or not. If an amount was given, it was recorded using the variables GPAYAMT and GPAYUNT.

	2	No payment in last month or week	6,116	8.19

NSAF ADULT PAIR FILE CODEBOOK

Variable Name: GSLIDE

Label: Sliding fee for child care arrangements

Type: N

Length: 3

Question Num: G55

Question Text: Is the amount of money you are charged for the child care of [(CHILD1)/(CHILD2)/any of your children under age 13] determined by how much money you earn?

[IF NECESSARY, PROBE: Do you pay a sliding fee amount for any of these arrangements?]

Description: Many non-profit child-care programs use graded fee systems so that parents with lower incomes pay less than other parents for child care. This question determined whether the respondent paid less for child care than other families because the respondent was low-income. This question covered child care for any of the respondent's children age 12 and younger.

Label: Employed now

Type: N

Length: 3

Question Num: I2

Question Text: Now I would like to ask a few questions about [your/(SPOUSE/PARTNER)'s] employment.

[Are you/Is (SPOUSE/PARTNER)] now employed at a job or business?

[IF SUBJECT HAS A JOB BUT IS NOT AT WORK (SICK, VACATION, STRIKE, BAD WEATHER) COUNT AS EMPLOYED.]

Description: The interviewer defined employed at a job or business as including any activities for wages or salaries, for profit or fees, or for payment in kind. It also includes self-employment, unpaid activity on a family farm or business, and unpaid work performed in exchange for welfare benefits (workfare). Respondents were considered employed even if at the time of the interview they were: temporarily out of work because of sick leave (paid or unpaid), vacation (paid or unpaid), a strike, or bad weather (as for construction workers); on (paid or unpaid) leave of absence or on a temporary layoff if they have a definite arrangement to return to that job; or on maternity leave, or summer vacation (for school personnel) if they have an arrangement to return. Respondents who work on-call (such as substitute teachers) or on an as-needed basis were not counted as being employed. Also not included were seasonal workers during the off-season; students who were in school but who had plans for summer jobs, or people who did only volunteer work.

Variable Name: IEMPPAY

Label: Employer share of health insurance cost

Type: N

Length: 3

Question Num: I18

Question Text: Does [your/(SPOUSE/PARTNER)'s] employer pay all, part, or none of the cost of the premiums for this health insurance?

Description: The respondent was expected to report whether the employer pays all, part, or none of the premium for the employee's own health insurance. The premium was defined as the regular payment for the health insurance coverage. It is different from deductibles and copayments paid for specific health care services. If there are no required premium contributions and the only payments the employee needs to make are the deductible or copayments when they use services, then the response to this question was entered as the employer pays all of the cost.

Question Num: I60

Question Text: How many hours per week did [you/(SPOUSE/PARTNER)] usually work on this job in 1998?

[NOTE: INCLUDE OVERTIME IF USUALLY WORKED OVERTIME]

Description: The interviewer defined hours usually worked as the number of hours the respondent worked in a typical week during that year. See also U_HRSLY. This information was only obtained from respondents who were not working at the time of the interview who indicated that they worked last year, but not mainly in self-employment. Respondents to this question include those who indicated that they worked as unpaid workers last year.

Variable Name: IRUNEMP

Label: Main reason not working

Type: N

Length: 3

Question Num: I4

Question Text: What is the main reason [you are/(SPOUSE/PARTNER) is] not working?

Description: Interviewers were instructed to read the entire list of possible reasons for not working if they found it necessary to probe for an answer. After getting an answer, they confirmed that the code they selected was the main reason the respondent/respondent's spouse/partner was not working. Interviewers defined the response categories as follows:

ILL OR DISABLED AND UNABLE TO WORK: Does not include temporarily out of work because of an illness.

RETIRED: Includes only retired people who are not working.

TAKING CARE OF HOME AND FAMILY: Includes "don't want to work" and "spouse doesn't want me to work."

CANNOT FIND WORK: Includes general difficulty finding work and difficulty finding work in a specific geographical or professional area.

OTHER: Includes "I'm just looking for work."

Note that only categories 1 through 5 appeared during the CATI interview. Other categories were created in coding "other specify" responses recorded verbatim by the interviewers.

Variable Name: LHIGRAD

Label: Highest grade or level of school

Type: N

Length: 3

Question Num: L1

Question Text: What is the highest grade or level of regular school you have ever completed?

[PROBE: IF ANSWER IS H.S. DIPLOMA: "[Do you/Does SPOUSE/PARTNER)] have a high school diploma or a GED?"]

Description: The interviewer defined regular school as public schools, private schools, and home schooling. Beyond 12th grade, regular schools include colleges, universities, and vocational/technical schools (such as a business institute or a cosmetology school). The interviewer defined highest grade completed as follows: A grade or level of school is completed if the student attended class through the end of that grade or level and met all the requirements for moving on to the next grade level. If the respondent answered "12th grade," he or she was asked about his or her highest degree in a later question. See also variables UBCPSED, UEDULEVL, and UHIGDEGR.

NSAF ADULT PAIR FILE CODEBOOK

Variable Name: RESPID

Label: Respondent identification number

Type: C

Length: 10

Question Num: N/A

Question Text: N/A

Description: This is a unique number assigned to each respondent during survey processing. We included it as a convenience to researchers wishing to bring together interview records for the same respondent. The number is unique. However, one respondent may answer for two focal children. In this case, both focal children will share the same RESPID. Similarly, each respondent provided information on his or her spouse/partner as well as him or herself.

Variable Name: SEX

Label: Gender

Type: C

Length: 2

Question Num: S6(SEX)/D1

Question Text: [FOR HOUSEHOLDS WITH CHILDREN: Now I'd like to ask about the children in your household who are under 18 years-old.]
[FOR HOUSEHOLDS WITHOUT CHILDREN: To find out who is eligible for the study, I'd like to ask about the people who usually live in your household who are under 65.]

Please tell me just their first name and age.

[FOR EACH CHILD/PERSON, ASK: Is this (child/person) (a boy or a girl/male or female)?]

Description: Gender was obtained for all household members either in the screener (S6) or the household roster in the extended interview (D1). It was only very occasionally missing (see the variable XSEX) and was imputed along with age when necessary. One of the reasons that it was imputed less often than age is that sex could be edited in some cases when a first name was given by the respondent.

Question Text:

Description: This variable indicates whether the sampled adult worked at a full- or part-time job during the current year. Responses were derived using the variable U_USHRS. If U_USHRS had a value greater than or equal to 35, the sampled adult was coded as full-time; if the value was less than 35, the sampled adult was considered to be part-time.

Variable Name: U_FTPTLY

Label: Full-time or part-time worker last year

Type: N

Length: 3

Question Num:

Question Text:

Description: This variable indicates whether the sampled adult worked at a full- or part-time job during the previous year. Responses were derived using the variable U_HRSLY. If the U_HRSLY variable had a value greater than or equal to 35, the sampled adult was coded as full-time; if the value was less than 35, the sampled adult was considered part-time.

Variable Name: U_HRSLY

Label: Hours worked per week last year

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable captures how many hours the sampled adult worked each week in the previous year. The values were based on responses to questions in section I (Employment and Earnings) of the questionnaire. For respondents who were working at the time of the survey for only one employer and who had worked for the same employer for one year or more, U_HRSLY is equal to the workers current usual hours of work (either IHRJBS, IHRSWK or IHRSWKN). For respondents who were mainly self-employed both at the time of the survey and last year, U_HRSLY is equal to the workers current usual hours of work (ISEHR). For all other respondents, U_HRSLY is equal to the hours that they usually worked per week at their main job last year.

NSAF ADULT PAIR FILE CODEBOOK

Variable Name: U_LFSR

Label: Labor force status recode

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: Based on responses to questions in section I (Employment and Earnings) of the survey, this variable indicates the sampled adult's labor force status (whether he or she is working, looking for work, or not in the labor force). On the focal child data set, this variable refers to focal children who are also emancipated minors, MKAs or spouse/partners of MKAs.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	0	Not in labor force	14,602	19.54
	1	Looking for work	2,914	3.90
	2	Working	57,203	76.56

NSAF ADULT PAIR FILE CODEBOOK

Variable Name: U_SOCPOV

Label: Social family income as % of poverty

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This constructed variable compares family income received during the year preceding the survey (e.g. 1996 family income for the 1997 NSAF) to the Census Bureau's Federal poverty thresholds for that year, given family size and numbers of children in the family. The social family includes not only married partners and their children, but also unmarried partners, all of their children, and members of the extended family (anyone related by blood, marriage, or adoption to the MKA, the spouse/partner, or their children). Information about the Census Bureau's poverty thresholds is available online at <http://www.census.gov/hhes/poverty/povdef.html>.

To determine family income, questions are asked about the amount of money income received in the preceding calendar year by each person in the sampled family, 15 years old and over. Sources of income include:

- (a) Money wages or salary;
- (b) Net income from self-employment;
- (c) Social Security;
- (d) Supplemental Security Income;
- (e) Public assistance or welfare payments;
- (f) Interest (on savings or bonds);
- (g) Dividends, income from estates or trusts, or net rental income;
- (h) Veterans' payment or unemployment and workmen's compensation;
- (i) Private pensions or government employee pensions; and
- (j) Alimony or child support, regular contributions from persons not living in the household, and other periodic income.

For earnings, this variable uses information reported in Section I: Employment and Earnings. Specifically, this included items on earnings from the year preceding the survey (items I49A - I76). For other sources of income (unearned income) received during the previous year, the variable uses information gathered in Section J: Family Income. Amounts that are reported from the receipt of vouchers or coupons from the welfare office to pay for special expenses (item J5) and food stamps (item J6) are not included in the calculation of family income.

Frequencies	Value	Label	Unwgt Cnt	Unwgt %
	0.5	Family income < 50% (last yr)	2,906	3.89
	1	50%<=family inc<100% of pov line (last yr	5,069	6.78
	1.5	100%<=family inc<150% of pov line (last yr	7,042	9.42
	2	150%<=family inc<200% of pov line (last yr	7,628	10.21
	3	200%<=family inc<300% of pov line (last yr	13,759	18.41
	4	Family income >= 300% of poverty (last yr)	38,315	51.28

NSAF ADULT PAIR FILE CODEBOOK

Variable Name: U_USBORN

Label: U.S.- or foreign-born

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable identifies whether household residents are "U.S.-" or "foreign-born". The foreign-born population includes all persons who are not U.S. citizens at birth. Conversely, the U.S.-born population is all persons who are U.S. citizens at birth. Most U.S.-born are born in the United States, but the U.S.-born population also includes persons born in Puerto Rico or another U.S. territory or outlying area (for instance, Guam, the U.S. Virgin Islands, American Samoa, Northern Marianas Islands, and the Marshall Islands). In addition, some persons born in foreign countries are considered part of the U.S.-born population because they were born to U.S. citizens residing outside the United States. Foreign-born persons include both naturalized citizens and non-citizens (see UIMMSTAT).

Respondents were asked where each household resident was born. For persons born outside the 50 states, the District of Columbia, Puerto Rico, and other U.S. territories and outlying areas, additional questions on U.S. citizenship followed. If a respondent answered that a household resident was a "non-citizen," then that person was coded as foreign-born. Additionally, if a respondent answered that the person was a "naturalized citizen," then they were also coded as foreign-born. A small number of focal children cases (34) were imputed to be U.S.-born, although they were born abroad, because one or more of their parents was a native-born U.S. citizen.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	1	U.S.-born	66,796	89.40
	2	Foreign-born	7,923	10.60

Variable Name: U_USHRS

Label: Hours worked per week this year

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable indicates the number of hours the sampled adult usually worked each week in the current year. Depending on how the sampled adult was employed, each score for this variable was calculated from responses to questions in section I (Employment and Earnings).

Means:	<u>Non-miss n</u>	<u>Min</u>	<u>Max</u>	<u>Mean</u>

Variable Name: UCCEXP

Label: Cost of child care (last month)

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable shows how much was paid for all child care arrangements used regularly during the last month. It was created for MKAs that used child care arrangements (including Center-Based Care, Head Start, Before and/or After School Care, Relative Care, In-Home Care by a Non-Relative, or Out-of-Home Care by a Non-Relative) for at least one focal child while the MKA worked, looked for work, or was in school. MKAs were asked how much they paid for all child care arrangements and programs used regularly for all their children under thirteen, while the MKA worked, was in school, or looked for work. Expenses could be reported in monthly or weekly terms. If weekly expenses were reported, this variable equals the weekly amount multiplied by 4.33. A small number of cases were edited to adjust for apparent confusion between weekly and monthly expenses.

Variable Name: UCPSID

Label: CPS family ID

Type: C

Length: 10

Question Num: N/A

Question Text: N/A

Description: CPS family ID is a unique number assigned to each family during survey processing. We included it as a convenience to researchers wishing to bring together interview records for the same CPS family. The number assigned will be the same on all files for the same family and, therefore, may be used to match records from one NSAF public use file to another. CPS family definition considers members of a family to be the householder, spouse of family householder, children in the family, and other relatives of the family householder.

Variable Name: UCUREMP

Label: Currently has employer coverage

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable assigns a value of 1 to persons who reported receiving employer sponsored health insurance coverage either directly or through another family member. Those who received a value of 1 may be receiving employer coverage exclusively or in combination with other types of health insurance coverage. This variable was created from variables E1-E5, E23, and E24.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>

Variable Name: UEDULEVL

Label: Highest level of education

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This derived variable indicates the highest grade or level of school that the sampled person ever completed. It is based essentially on the variable LHIGRAD, the questionnaire item that asked about the highest level of education completed. To create this variable, responses to that item were recoded based on data from the variables LHDEGR, LDEGRS, LGED, LHSDIP, LVOCTC, and LOTHDG, which all refer to various academic degrees the respondent may have earned (including GEDs and vocational certificates). For example, for a respondent who reported (in item LHIGRAD) that the highest level of education they had received was 12th grade but who later reported having received a high school diploma, the initial value was recoded on the basis of the additional information.

Question Num: N/A

Question Text: N/A

Description: This variable refers to the relationship of the sampled person to the emancipated minor, obtained from the Household Roster section of the survey (Section D). The relationship classifications are not gender-specific. Researchers who desire gender information will have to combine this variable with the variable SEX in order to determine whether the sampled person is, for example, an aunt or uncle.

NSAF ADULT PAIR FILE CODEBOOK

Variable Name: UFAMID

Label: Social family ID

Type: C

Length: 10

Question Num: N/A

Question Text: N/A

Description: In addition to grouping respondents using CPS definition of a family, NSAF respondents were grouped according to a second family definition. This “social family” definition included not only married partners and their children, but also unmarried partners, all of their children, and members of the extended family (anyone related by blood, marriage, or adoption to the MKA, the spouse/partner, or their children).

This unique number was assigned to each such “family” during survey processing. We included it as a convenience to researchers wishing to bring together interview records for the same social family. The number assigned will be the same on all files for the same family and, therefore, may be used to match records from one NSAF public use file to another.

Variable Name: UFAMTYP

Label: CPS family type

NSAF ADULT PAIR FILE CODEBOOK

Variable Name: UHHDREL

Label: Detail household summary

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable is based on the CPS variable HHDREL, the detailed household summary, but there are slight differences. In CPS, HHDREL=3 means a child under 18 years, never married while HHDREL=4 means a child under 18 years, ever married. Since NSAF does not gather that information for everyone, we can only search for a spouse present or not present in the household. Also, while some people are coded as unrelated to the reference person, they may in fact have an indirect relationship by way of marriage (e.g., a person is married to the daughter of the reference person or a person whose parent is married to the reference person). The code checks for these situations in assigning UHHDREL. Values for this variable were coded based on RELHEAD.

Frequencies	<u>Value</u> <u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	1 Householder	39,646	53.06
	2 Spouse of householder	25,070	33.55
	3 Chld of hshldr, single (no spouse in HH), <1	26	0.03
	4 Chld of hshldr, ever married (spou in HH), <	2	0.00
	5 Child of householder, 18 years and over	5,085	6.81
	6 Other relative of householder	1,531	2.05
	7 Nonrelative of householder	3,359	4.50

NSAF ADULT PAIR FILE CODEBOOK

Variable Name: UHIGDEGR

Label: Highest educational degree

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable indicates the highest educational degree held by a sampled person. It provides a sharper, simpler measure of educational attainment than UEDULEVL (see variable UMHSGRAD) while preserving a range of possible responses. As with UEDULEVL, vocational and technical certificates are considered lower-level degrees than college diplomas (but higher than high school diplomas). In fact, they represent a separate educational track from the academic degrees that make up the rest of the UMHSGRAD scale. A high school diploma is ranked above a GED since the diploma has been found to contribute more to later earnings.

In reporting the highest degree earned, UHIGDEGR does not indicate whether all lower-level degrees have been earned. For example, a person with a bachelor's degree may or may not have earned an associate degree. As pointed out earlier, except for high school diplomas and GEDs (see UHSGRADU), there is no comprehensive way to make such distinctions. Also, in moving from highest educational level in UEDULEVL to highest degree in UHIGDEGR, only reported degrees are coded. If another degree logically stands between the highest reported degree and the highest level of schooling in UEDULEVL, it is not coded in UHIGDEGR. Thus, for example, if the highest degree is "associate" when the highest level of education is "completed some graduate or professional classes," no bachelor's degree is inferred. For this reason, the highest-degree variable cannot be thought of as a simple "rounding down" of educational level to the degree that could be assumed to precede it—sometimes the variable reflects an even larger jump.

This variable has not been imputed.

NSAF ADULT PAIR FILE CODEBOOK

Variable Name: UHINS4

Label: Current insurance coverage hierarchy

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable classifies each sampled person's health insurance coverage at the time of the survey into four mutually exclusive groups constructed as a hierarchy. For instance, if someone identified having both employer-sponsored coverage and Medicaid, they were classified as having a value of 1 (Employer-Sponsored) for this variable. The order of the hierarchy was: employer-sponsored own, employer-sponsored dependent, Medicaid, state program, SCHIP, a plan purchased directly from an insurance company, Medicare, military, and other-unspecified type. After persons with multiple coverage plans have been classified according to the specified hierarchy, coverage types are collapsed into the four mutually exclusive groups: employer (including military coverage), Medicaid/State/SCHIP, Other (including private, Medicare, and other), and uninsured. It is created using variables E1-E24.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>

Variable Name: UIMMSTAT

Label: Immigration status

Type: N

Length: 3

Question Num: N/A

Question Text: N/A

Description: This variable identifies whether or not a household resident is a "U.S.-born citizen"; "foreign-born, naturalized U.S. citizen"; or "foreign-born, non-citizen." U.S.-born citizens are born in the 50 U.S. states, the District of Columbia, Puerto Rico or another U.S. territory (for instance, Guam, the U.S. Virgin Islands, American Samoa, Northern Marianas Islands, and the Marshall Islands). Additionally, some persons born in foreign countries are considered U.S.-born citizens because they were born to U.S. citizens residing outside the United States. Naturalized citizens are foreign-born persons who have become U.S. citizens. Non-citizens are also foreign-born but have not yet become citizens (see U_USBORN).

Respondents were asked where all household residents were born. For persons born outside the 50 states, the District of Columbia, Puerto Rico, and other U.S. territories and outlying areas, additional questions on U.S. citizenship followed. A small number of focal children cases (34) were imputed to be U.S.-born citizens, although they were born abroad, because one or more of their parents was a U.S.-born citizen.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	1	US-born citizen	66,796	89.40
	2	Foreign-born, naturalized US citizen	3,243	4.34
	3	Foreign-born, non-citizen	4,680	6.26

NSAF ADULT PAIR FILE CODEBOOK

Variable Name: UINCRPOV

Label: CPS family income as % of poverty

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This constructed variable compares family income received during the year preceding the survey (e.g. 1996 family income for the 1997 NSAF) to the Census Bureau's Federal poverty thresholds for that year, given family size and numbers of children in the family. The family is composed of all household residents related by blood, marriage, or adoption. Information about the Census Bureau's poverty thresholds is available online at <http://www.census.gov/hhes/poverty/povdef.html>.

To determine family income, questions are asked about the amount of money income received in the preceding calendar year by each person in the sampled family, 15 years old and over. Sources of income include:

- (a) Money wages or salary;
- (b) Net income from self-employment;
- (c) Social Security;
- (d) Supplemental Security Income;
- (e) Public assistance or welfare payments;
- (f) Interest (on savings or bonds);
- (g) Dividends, income from estates or trusts, or net rental income;
- (h) Veterans' payment or unemployment and workmen's compensation;
- (i) Private pensions or government employee pensions; and
- (j) Alimony or child support, regular contributions from persons not living in the household, and other periodic income.

For earnings, this variable uses information reported in Section I: Employment and Earnings. Specifically, this included items on earnings from the year preceding the survey (items I49A - I76). For other sources of income (unearned income) received during the previous year, the variable uses information gathered in Section J: Family Income. Amounts that are reported from the receipt of vouchers or coupons from the welfare office to pay for special expenses (item J5) and food stamps (item J6) are not included in the calculation of family income.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>

NSAF ADULT PAIR FILE CODEBOOK

Variable Name: UREGION

Label: Region

Type: C

Length: 1

Question Num: N/A

Question Text: N/A

Description: In NSAF, we use the regional partitioning of the United States that was set up by the Census Bureau. The Census Bureau divides the United States into four regions, and within each region into divisions, nine in all. The regions are the Northeast, Midwest (formerly North Central), West, and South. The nine geographic divisions have been largely unchanged for the presentation of summary statistics since the 1910 Census:

NORTHEAST REGION. This region consists of two divisions: New England and the Middle Atlantic. New England has six states: Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont. The Middle Atlantic Division has three states: New Jersey, New York, and Pennsylvania.

MIDWEST REGION. This region also consists of two divisions: East North Central and West North Central. East North Central has five states: Illinois, Indiana, Michigan, Ohio, and Wisconsin. The West North Central Division has seven states: Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, and South Dakota.

WEST REGION. This region consists of the Mountain and Pacific Divisions. The Mountain Division has eight states: Arizona, Colorado, Idaho, Montana, Nevada, New Mexico, Utah, and Wyoming. The Pacific Division has five states: Alaska, California, Hawaii, Oregon, and Washington.

SOUTH REGION. The South Census Region has three divisions: East South Central, West South Central, and South Atlantic. The states are Alabama, Kentucky, Mississippi, and Tennessee for the East South Central Division and Arkansas, Louisiana, Oklahoma, and Texas for the West South Central Division. The South Atlantic Division includes the District of Columbia and the remaining states: Delaware, Florida, Georgia, Maryland, North Carolina, South Carolina, Virginia, and West Virginia.

For the telephone sample, the regions were derived from the area code of the telephone number. From the in-person component, the regions were obtained from the actual sample addresses. Divisions have been defined here, even though the public use files show only census region.

Frequencies	<u>Value</u>	<u>Label</u>	<u>Unwgt Cnt</u>	<u>Unwgt %</u>
	1	Northeast	16,799	22.48
	2	Midwest	23,610	31.60
	3	South	19,354	25.90

Variable Name: USUBFAM

Label: CPS subfamily number

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This variable is a flag for subfamily assignment and is used in creating legal family ID numbers.

Values of USUBFAM are created based on HHCOUNT (number of persons in a household), SPOUSE, PARENT, and OTHREL.

If a person is the reference person, he/she is placed in the first subfamily.

The program cycles through the household roster, searching for spouses and children. Spouses and children are placed in the same subfamily unit as the initial person. Other relatives are also picked up and put into the same subfamily unit as the initial person.

Variable Name: WGPRNA0

Label: Natl lvl adult pair full smpl wgt

Type: N

Length: 8

Question Num: N/A

Question Text: N/A

Description: This is the national level survey weight. The weight reflects the original probability of selection of the household, the subsampling done in NSAF to reduce respondent burden, and adjustments made for nonresponse. The weight was further modified, as is customary in household surveys, to correct for net undercoverage. The specific population totals used in the coverage adjustment were obtained from the Census Bureau and are consistent with the concepts employed in the 2000 decennial census.

Variable Name: WGPRNA1-WGPRNA60
